Common Chinese Treatment for Corona Virus – Cured in Four Days 4.18.19

Tahir Mahmood Chaudhry
2nd executive Director at Ovex Technologies Pakistan

Translation from an Indian living in Wuhan:

Chinese are not taking any medicine or any vaccine for Corona virus.

Every household has a Corona Virus case.

They have stopped going to hospital for cure.

They instead kill the virus with heat.

Very Hot Steam Inhalation from kettle 4 times a day
Hot Gargles 4 times a day
Hot tea 4 times a day

Virus dies in 4 days.

5th day you are Corona negative.

Take care
