

Subject: Graphene Oxide, 5G and branded as LUCIFERIAN with Barcode on the injection side

Sent: 30/09/2021 6:19:09 PM

The graphene oxide is activated with 5G signals that gives you covid.

You are given the jab with an implantable microneedle quantum dot vaccination delivery system or human implantable microneedle mark of the beast with a patent number 060606. Take away the human you get 666.

The vaccine has a crystalite liquid called hydrogel and it has lucifer in it. The hydrogel is a liquid microchip.

Six months after you have your second dose, the hydrogel starts shaping up as the size of a rice pellet.

It contains firmware, CPU and just like your computer. The vaccine has nanoparticles. You become a living and moving open computer.

The nanoparticles occupy your brain, heart, lungs, liver. The luciferase makes your body or your right arm to illuminate like fireflies.

The luciferase is owned by the Luciferians. You are branded to be one of the Luciferians.

The US Supreme Court declared the vaccinated are products owned by the brand they put you- LUCIFERIANS.

Every vaccinated person now has a barcode on the injection site.
