I had heard this before, not sure where, Have you seen this? A long time ago

Kissinger Quote from a speech to the
WHO Council on Eugenics, February 25,
2009:

"Once the herd accepts mandatory
vaccinations, it's game over. They will
accept anything - forcible blood or organ
donation - "for the greater good". We
can genetically modify children and
sterilize them --- "for the greater good".
Control sheep minds and you control the
herd. Vaccine makers stand to make
billions. And many of you in this room are
investors. It's a big win-win. We thin out
the herd and the herd pays us for
extermination services."
