who have planned this it's all planned now why they planned this i don't know and i don't even think i want to know [Music] this system is being put in place using lies and it's being put in place using lies for some purpose and i believe that purpose is complete totalitarian control and i think the purpose of that is going to be massive population one of our problems here is the assumption that this is like every other vaccine we've ever seen and it's not it's the greatest experiment that has ever been performed in the history of medicine and it's being performed on human beings it's just an incredible thought so all of this started to come together and we started to get kind of a sick feeling in our stomachs that wait a minute this is science gone bad here none of this is supposed to be happening the cdc has never otherwise explained these data and they are so tightly related to the vaccine 50 of healthcare providers are absolutely not getting this injection we don't trust the data the fox guarded the hen house the companies did their own data there were no independent observer groups you should disregard all announcements about case rates in your community because they're completely fraudulent the very inventor of the pcr test nobel prize winner kerry mullis said this test in itself is not a diagnosis and with pcr if you do it well you can find almost anything in anybody but they said we're being pressured in-house to add cova to the diagnostic list when we think it has nothing to do with the actual cause of death as a physician i received an email last week from the department of health coaching me on how to fill out death certificates it's another level now of criminality there's a lot of other doctors who feel the same way well they're too frightened to speak up and as soon as that happens a notification and you're in front of the medical board dr robert malone is a vaccine expert he is the inventor of mrna technology he's undergone systematic attack his history is literally being erased online these fact-checking groups for example factcheck.org they're funded by an organization that holds over 1.8 billion dollars of stock in a vaccine company once i was censored i feel like i've kind of gone into this other world and now i'm surrounded by people that it's kind of normal to have their work talked about in a strange way sent me there to cover the covid treatments at that hospital i just wasn't supposed to ask that question the viewers are being deceived by a carefully crafted narrative they are trying to push a narrative that is not based on the decades of immunology how is that possible in a medical pandemic that's fake news that's why people have turned to facebook to share their stories and experiences with one group reaching almost 65 000 members it was removed overnight for no apparent reason the victims of this vaccine they're not being able to tell their story the centering has been going on for well over a year it's well documented it's unequivocal tick tock is taking down all of my sounds so that you guys can't hear my story the great barrington declaration authored and signed by three of the world's leading experts in epidemiology infectious diseases and vaccines we've got to the point where scientists such as yourselves need to kind of gather for secret meetings in houses to come out with declarations of descent are you of the same opinion i don't think i can answer that question why not anyone who speaks out against this line of policy is shut down i basically have to be in line with the government line do you want your physicians and scientists their voices suppressed we're polarized right now we're polarized and and threatened investigation and discipline for any physicians who express any of the negative aspects of

any of these interventions no matter what the evidence says it great you're not the first doctor i've heard from maybe got unusual visits from the state or you know basically got a lot of pushback you have to realize the number of doctors and scientists who are saying no to all this outnumbers those who sing yes and if this is the mountain if there's the hill where i get nailed on i will get nailed on it i don't care you can report me to the boat you can kill me you can do whatever but i'm not gonna let americans die 75 years ago herman gearing testified at the nuremberg trials and he was asked how did you make the german people go along with all this and he said it's an easy thing the only thing a government needs to make people into slaves is fear you can do this in a nazi regime you can do it in a socialist regime you can do it in a communist regime you can do it in a monarchy and a democracy we the germans are asking this question how it happens in the 1930s and a lot of people are now getting a sense how it happened we're held hostage to more and more mutations that can be used to manipulate us over and over again and take away our freedoms we've used these tactics in other countries to manipulate the voting conquer now we're watching our own government our military use them against us men of our unit and our service believe that we're pointing our weapons in the wrong direction this time now the tyranny is against ours and our people and we can't see it because it's on our home side where it's never been before we need to start looking at ourselves as officers and thinking is what i'm doing right you don't get to just say i'm following orders and if that costs you your job so be it at least you'll be able to look at yourself in the mirror at night they start enforcing the communist state through the vaccine passport please australia do not move to any goal post the second you do they start to build the fascist state in australia people have had it too good for too long and they see these communist countries there's no way that could happen here we are the most locked down country in the world massive protests you know the media said it was only three and a half thousand people what we saw today were three and a half thousand very selfish buffets the mainstream media is never ever ever going to be on our side because they are owned and controlled by the very people we are fighting against they've identified that area as being a really strong area strong men strong morals strong customs you are the toughest you have the strongest family community connections religious connections you guys are unbreakable and they know that they target and break you first and makes it easier for them to break the rest of us stand the [ \_\_ ] up don't be the reason why our future generations look back and think where the heck were they this is the time there is not going to be another time unless we shake this down [Music] [Music] human rights get off your knees you
