good evening my name is tatiana ibrahim
and i'm here for the first time
i'm here tonight not only as a community
member but as a parent in this district
recently you sent out a survey wanting
to know why
parents were not voting yes for this
budget
so my my situation my vote for no is a
little different
i think the board of education and those
sitting on the panels are thieves
i think they're liars and have committed
treason against our children
my message to this district and the
members of the board of ed
stop indoctrinating our children
stop teaching our children to hate the
police
stop teaching our children that if they
don't agree with the lgbt community
that they're homophobic you have no idea
each child's life you don't know what
their family
lifestyle consists of you don't know the
makeup
of their of their life you have
children like mine
who is muslim and i'm christian
and everyone would think they would
never believe that of her
right because the way she looks or
according to miss cyrus
she's too pasty white ma'am
ma'am excuse me i'm up here
we're not allowed to use names if you
have something you'd like to discuss
about a specific person you can call the
superintendent or leave your info for
her to call you tomorrow

why are we not allowed to discuss names
why am i not allowed
when they purposely themselves expose
themselves on social media
talking about calling for the death of a
former president
or saying that any child that doesn't
believe in black lives matter should be
canceled out
is this what my tax dollars is paying
for your
teaching my children and other children
that if they believe in god almighty
they're part of a cult these educators
put their own names out there
we have mr berry who took it upon
himself with ms cyrus to create a
curriculum
that should be it do you want the proof
i have the proof
you created a curriculum of black
panther
indoctrination ma'am you use taxpayers
dollars one more time i i have no issue
hearing what you have to say but why why
can we not let the public speak
why can't we let the public know that
you're teaching our children to go out
and murder our police officers
do you want the proof i have the proof
is that what scares you the proof
that a parent actually standing up
against all of you
is that what scares you to call out the
names of these people
you work for me i don't work for you
you have a duty we are entrusting our
children to you
we teach our children morals values when
they grow up to commit crimes and end up
in prison and kill a police officer
it's our fault no it's your fault
you're emotionally abusing our children
and mentally abusing them
you're demoralizing them by teaching
them communist

values this is still america ma'am and
as long as i'm standing here on this
good ground earth of god
i will fight and i'm not this is not the
last of me you will see
i'm retired i have nothing else better
to do
we can do it peacefully or we can take
it to the highest court
because you know and i know i'm not the
only parent fighting is
all across america right now schools are
trying to poison our children's minds
teaching them about things that have no
right to be taught in school
so so normally i'm just gonna if you
don't mind i'm gonna just
give you a just a feedback for a moment
i have no problem having a peaceful
discussion
this is not a peaceful discussion no
that's your opinion see here we go again
this is peaceful to me this is peaceful
well
i'm not burning looting and murdering
this is peaceful i did not accuse you of
that but
i would don't have a problem having a
conversation with you
a peaceful conversation which is this is
not 6.95 per child in the middle school
to buy
a curriculum from read to me dot org
that wasn't even approved
by the by the board of ed the
administrators took it upon themselves
to buy these books with taxpayer dollars
while covet is going on how many
families are struggling to pay their
mortgages
listen by all means you want to teach
kids these things fine don't do it on my
dollar
don't infringe on my religious beliefs
don't infringe do you know who makes up
the majority of this district

children from police officers families
blues
back the blue children do you know what
these children feel like when they come
home have you spoken to them
no you're silencing them this whole
canceled culture
you're silencing the children where are
their rights they have no rights
because if they don't believe in the
indoctrination
the demonic twisted sneaky
vile acts and and and education if you
call it that that you're teaching our
children
they don't agree with that they're
either homophobic
they're part of a cult they they they're
racist what what's what's racist who
defines racist why because i'm
do you know what race i am
do you you don't you don't even have an
idea i could be black i could be white
i could be asian you don't know who are
you to determine that
who is anyone to determine that you know
what children in the school system
children like other children they don't
look at color
black and chil black and white children
hispanic children you know why they get
along
because they don't look at each other's
collar so you're the racist not them
not us you're judging and dividing
you're causing segregation everything
that we fought for everything that i
fought for for years so you have the
right to stand here and tell me i'm not
allowed to mention a name
when the person the mr barrio miss cyrus
themselves
you have ela teachers giving out uh
assignments on police murder to police
or bad
you want the proof okay because we have

it
so what policy do you have that teachers
are not allowed to go on social media
and indoctrinate
they took an oath a responsibility
they're they're going against everything
that they stand for
and well and i understand end it
i end it i have to end it so why
why you're on my dollar why well
actually i i work for nothing doing this
oh you work for nothing oh i do this is
a volunteer position number one
i'm still my taxes paying for everything
this podium
is every taxpayer's dollar here we have
rights
we have rights and you're making general
assumptions no i'm not making
assumptions i'm not
i know what i'm speaking about i don't
agree with you so it's an assumption
well i'm not going to engage in a back
and forth with you about this
so if you would like to make an
appointment i would be happy to sit with
the superintendent i don't i don't want
to the superintendent
the assistant superintendent already
sent an email and stated that they had
no idea that these books were being put
on in
in the students hands the superintendent
already stated that they had no idea
that the funds of taxpayers were
supporting this
black panthers do you know black
panthers is a domestic terrorist group
do you know that it was it was it was
condemned as a as a terrorist group
do you know they kill cops i have a
problem when you're trying to kill a
police
officer i have a big problem with that i
have a problem when teachers
are passing out flyers recruiting

children
to go to to the courthouse to protest
black lives matters
when you have people sitting with with
signs that says all cops are
bastards really all cops are bastards no
i think you people are because the way
you're acting
and the way you're training our children
and our police officers and making them
believe that it's okay to abuse them
i'll be damned if i'm going to sit here
and let you do that you you
no i'm i will become your worst
nightmare because i'm going to stand
here and keep fighting and fighting and
fighting and fighting
and if not um i can actually go out
get signatures what happens if we stop
paying school taxes
you're gonna arrest all the community
the majority of the community
no i don't think so this won't be the
last of me
i want everyone to know what's going on
because you're hiding it
you're hiding it you know who does that
communists do that
that's what you're doing recruiting
children
children you're recruiting children to
hate our police officers how dare you
you have a librarian in the high school
passing out black lives matter pins
when a student asks for a blue live why
would i have that
why would she have that what did you do
for police
police week
why don't you tell me sir what is it you
want to tell me
you've had your two minutes i don't need
two minutes i can
i can go as long as i like no that's not
the point no oh
who where is it say that i can't is

there a law against that
we do have a policy a board policy who
makes these board policies
the board the board and who pays the
board
nobody the chair you're sitting on we
pay for it
the lights that are on we pay for we pay
for everything
you want to silence me because i spoke
the truth i spoke the truth
everyone out there heard me whether they
agree or they don't they're going to
start looking into it
and now you're go now you're exposed
that's all
it's going to end this indoctrination
and hatred towards our police officers
the systematic racism and canceled
culture is going to end
you came to the wrong school district to
do this okay you need to respect every
child
so therefore no politics should be
discussed in school rather whether it be
conservatism democratic liberalism
you gave a a a survey after the
elections
why why did you ask students who they
voted for
what did it matter
no answer huh you have no answers for me
i didn't expect an answer that's okay
though we'll get them some way or
another
same way you can't show us where all our
money goes right
yeah that's what i thought thank you
