

Very Negative Quotes by Marcia Angell about Today's Pharmaceutical Industry 7.7.22

"Over the past two decades the pharmaceutical industry has moved very far from its original high purpose of discovering and producing useful new drugs. Now primarily a marketing machine to sell drugs of dubious benefit, this industry uses its wealth and power to co-opt every institution that might stand in its way, including the US Congress, the FDA, academic medical centers, and the medical profession itself."

Marcia Angell, M.D.
Former editor of The New England Journal of Medicine

OCCUPY EDUCATED
facebook.com/OccupyEducated

It is simply no longer possible to believe much of the clinical research that is published, or to rely on the judgment of trusted physicians or authoritative medical guidelines. I take no pleasure in this conclusion, which I reached slowly and reluctantly over my two decades as an editor of The New England Journal of Medicine.
