What happens energetically after the Covid "Vaccination"?

A message from France - the experiences of a French energetic healer: Natalie Schaevens, [03/23/2021]

What happens in the energy bodies and especially in your soul after the "vaccination"?

Here is the experience of a therapist who has been working for many years with energy, with energy healing, with the subtle bodies, but above all with the radiation of light, and the frequency of the vibration of the heart, the seat of our soul, in order to achieve deep contact with the higher self.

I was having a session with a person who had received the first and second doses of the vaccine. I had already energetically treated that person, but I didn't know they had taken the vaccine. When I started treatment, I noticed immediately the change, of very heavy energy emanating from his/her subtle bodies. The scariest thing was, when I was working on the heart chakra, I connected with his/her soul: it was detached from the physical body, it had no contact and it was, as if it was floating in a state of total confusion: a damage to the consciousness that loses contact with the physical body, i.e. with our biological machine, there is no longer any communication between them.

During the treatment, this soul told me that it no longer felt the body, and had the impression of floating in a deep discomfort. The energy with which I worked, the energy of its energy field, was very heavy, and you could feel these substances, which are very stressful for the subtle bodies.

I continued the treatment by sending light to the heart chakra, the soul of the person, but it seemed that the soul could no longer receive any light, frequency or energy. It was a very powerful experience for me.

Then I understood that this substance is indeed used to detach human consciousness, so that this consciousness can no longer interact through this physical body that it possesses in life, where there is no longer any contact, no frequency, no light, no more energetic balance or mind. Then I started crying for that soul, because it was something that touched me deeply, a very powerful experience. I didn't say anything to the person, because I didn't know how to say it, or whether they would have been able to understood.
I realized that it not only pollutes the subtle body or the physical body, but that it is something that has to do with our soul. The purpose is to damage contact with the consciousness of the soul, and try to destroy it. What Steiner said is exactly that -- it's not just about compromising the immune system.

Update - Second treatment of the person

There was another change, and again, a deterioration, both in severity and in the energy that its energy field transmits -- but most importantly, there was a very marked decrease in frequency. He/she is currently not showing any physical symptoms on the physical body. As for the situation that manifests itself on the energetic level, and especially on the soul, it has been confirmed that the soul has been expelled from the physical body, but it is still tied by the so-called cord. However, it also confirms that the soul is not interacting anymore with the physical, emotional and mental bodies; there is no more type of communication.

The soul is no longer able to manage these three bodies, to continue its evolutionary process in this lifetime, precisely because this contact has been interrupted. This therefore probably destroys any chance that this soul will have any chance of full bodily ascension in this lifetime, as may have been long planned, but this may now, because of this soul's choice, be possibly delayed for many millennia.

Since this is a new thing that has never happened before and therefore soul consciousness does not know what is manifesting, the soul is in a situation where it does not know why it has been cast out. It is aware that [already] after the first dose of the vaccine this happened, that it no longer had any form of communication, that it could no longer use these bodies that it taken on to live on earth. The development and the experiences that the personality transmits to the soul have all been interrupted.
