## Statement

Friday, September 17, 2021  
FOR IMMEDIATE RELEASE

### Statement from Arizona State Senate President Karen Fann Maricopa County agrees to settle with Arizona State Senate

"Under threat of losing hundreds of millions of dollars in revenue sharing, today Maricopa County settled with the State Senate, in a victory for election integrity and the Arizona taxpayer. The agreement sets up a Special Master paid for by the County, who will get the answers to questions the Senate has had concerning the routers and splunk logs used in the 2020 election. Former Congressman John Shadegg will serve as the Special Master, working with computer technology experts. The Senate will finally get the answers to questions asked for in subpoenas issued to the County months ago.

In addition, the County has agreed to drop its notice of claim of \$2.8 million to replace election equipment delivered to the Senate as required in the January subpoena. Experts have told us there is nothing that has been compromised or damaged by the audit, and the Secretary of State failed to follow procedures regarding decertifying the machines. There is no reason taxpayers should be on the hook for purchasing unnecessary new election equipment.

I look forward to getting our final questions answered and wrapping up the review of the election in Maricopa County."
