**From Ben Fulford weekly update:** Now an **alliance of the US military white hats, Asian secret societies, and the benevolent faction of the European nobility** are counter-attacking on all fronts. In Japan, for example, **the fake pandemic** is being wound down by the new Kishida government with the backing of the US military. A police investigation is underway to identify and prosecute not only **the pushers of the fake pandemic but also the perpetrators of the Fukushima terror incident**. Last week this writer met a senior member of the Kishida Cabinet who said that as a part of this counter-attack the Bank of Japan has been nationalized. The next move will be to confiscate the close to 40% share of Japan's listed companies that were **extorted by the KM** from Japan **via threats of attack with earthquake weapons**, the cabinet minister said.

The Korean gangsters who have been sub-contracting the murder of Japanese politicians for the Khazarian Mafia are also being removed by an unprecedented Japanese police investigation that has the backing of the Emperor, right-wing and close to the emperor they say. Ultimately the investigation will target **the entire North Korean nexus of the KM**, the source says. **The loss of Japan has been a fatal blow to the KM and their fake Biden regime in the US**, Pentagon sources say. **In the US, the hammer is about to fall with**

According to the source Project Odin is: *The military space force intelligence operation run out of the Thule Military Base and the Cheyenne Mountain bunker complex (which is still locked down by orders from the Commander in Chief). It is connected to the Starlink Satellite System which controls all grids around the world –bypassing all media/radio/internet platforms- project Odin can take over all media platforms via the emergency broadcast system. The alliance is preparing to fire it up.*

Melissa Ciummei, a financial investor from Northern Ireland, has serious concerns that injection passports will be used more like data passports to control participation in society. She believes that this passport system was manufactured in order to help bring about a financial reset, replacing our failing fiat currency system. Because passports are so crucial for the successful implementation of this new financial system, mandatory vaccination of all citizens, young and old, will be imperative for the plan to succeed. Tune in to this in-depth interview for an insight into the economics at play behind the C19 narrative.

Subject: **GREAT NEWS: CMS Vaccine Requirement NOT ENFORCEABLE**

THANK GOD: HCA Healthcare reports: As of today, both vaccine mandates have been stayed which means the mandates have been put on hold indefinitely by federal courts and currently are not enforceable against any healthcare providers or employers, including HCA Healthcare.

Below link from Dr. Robert Young proves ALL vaccines except the possibly 20% saline only, that tricks the data, have stainless steel & graphene oxide (magnitizes & explodes blood cells plus parasites identified in Pfizer & their "nano 'vaccine' contact tracing" patent Aug 30, 2021 ). For those already injected---NO BOOSTERS or any more boosters. This is a BIO WEAPON.

From Mary, Thanks for prayers and litigation! I get to work a little longer. Feel sorry for the **about 500 employees working in the city and county of Denver who were terminated or quit or gave in to City mandates.**

Interesting to watch the Unselect Committee go after the gentleman at the Department of Justice who thought the Election was RIGGED, but not go after the people who did the RIGGING. Just look at the numbers that the Fake News does everything possible NOT to report. They are overwhelming! The Unselect Committee itself is Rigged, stacked with Never Trumpers, Republican enemies, and two disgraced RINOs, Cheney and Kinzinger, who couldn't get elected "dog catcher" in their districts. Kinzinger has already quit!
