PUTIN SMASHES THE ROTHSCHILD FINANCIAL CABAL: "OUR FUTURE GENERATIONS WILL BE BORN WITHOUT ROTHSCHILD CHAINS AROUND THEIR WRISTS AND ANKLES." A HISTORIC STRIKE AGAINST THE GLOBALIST FINANCIAL EMPIRE

BOOM! Putin has smashed the Rothschild financial cabal by declaring Russia completely free from their control.

NEWS AND UPDATE ON NESARA/GESARA (QFS) UPCOMING GLOBAL RESET AND MEDBED TEC

John f Kennedy jr · Putin Dismantles the Rothschild Financial Empire: "Our Descendants Will Be Born Without the Shackles of the Rothschilds." A Historic Assault on the Globalist Financial Empire. Updated April 19, 2026. Boom! Putin has shattered the Rothschild family's financial stranglehold, declaring Russia completely free from their influence. As the first major power to expel this global banking cartel, Russia challenges the New World Order and reclaims its sovereignty. Vladimir Putin stated that future generations will be born without the shackles of the Rothschilds—a declaration that directly defies the globalist elite. The Rothschild banking network has long controlled nations through debt and manipulation. Putin boldly proclaimed that they neither own the world nor possess unlimited power over others. He exposed the flawed regulations of the World Trade Organization (WTO) and a global financial system designed to benefit the elite, while utilizing economic sanctions as a political weapon disguised as free trade. Russia refuses to participate in these unjust systems. Putin emphasized that the U.S. dollar serves as an economic weapon, controlled through the structures of the International Monetary Fund (IMF) and the World Bank—institutions under Rothschild dominion—which enforce debt slavery and erode national sovereignty. "If we do not challenge them now, no freedom will remain," he warned. Decisive measures included the elimination of financial powerbrokers—such as Mikhail Khodorkovsky—who served the interests of globalist factions. Putin seized their assets and expelled them, declaring that they were grabbed "by the scruff of the neck" and thrown out. A drastic reduction in the role of the dollar was a key element, as Russia pivoted toward alternative currencies and alliances to dismantle the dollar's hegemony and weaken the power elite. "They said we would fail, but we proved them wrong," Putin proudly asserted. Russia now stands stronger and more independent. This victory brings an end to the cycle of economic subversion and dependency engineered by international banks. Putin has bestowed upon future generations true freedom from financial servitude. Russia's courageous stance inspires patriots worldwide to resist the financial empire and the New World Order. It may well mark the beginning of the Rothschild dynasty's decline. Putin's actions are rewriting history by rejecting a system controlled by the elite; the world will be governed by free nations, not by banks. This serves as a rallying cry for all those battling against the shadow government. The confrontation is intensifying, yet the spark of resistance continues to burn bright. Federal agents have dismantled a massive \$1.4 billion human trafficking syndicate that weaponized South Florida's tourism and logistics infrastructure. Operation Tide Break exposed a sophisticated network that utilized legitimate charter companies, staffing agencies, and shell corporations to smuggle victims, treating them like time-sensitive cargo. By exploiting the complexity of Miami's hospitality and labor markets, traffickers successfully masked their operations behind mundane administrative paperwork. With 58 arrests, 103 victims rescued, and \$210 million in assets frozen, this investigation reveals how a professionalized criminal enterprise turned the city's own economic machinery into a vast pipeline for human exploitation. [When government defrauds the citizen, it forfeits its moral claim to tax him - Rocky Mountain Voice](#)

The Supreme Court stated the matter even more directly in *Yick Wo v. Hopkins*: sovereignty remains with the people, and the law is the “definition and limitation of power.” Government officers do not own sovereignty. They borrow it. They exercise it as trustees. They **betray it when they use public authority to injure the public**, then hide behind procedure, immunity, bureaucracy, or political convenience. ...

In *Tyler v. Hennepin County*, the Supreme Court held that a county could not take a taxpayer’s property to satisfy a tax debt and keep value beyond what was owed. The government had a lawful claim to collect the debt. It did not have a lawful claim to keep the surplus. **The Court treated that excess as a taking.** That distinction matters. Even when government has authority to collect, it does not have authority to enrich itself beyond the lawful debt.... **In *United States v. Lee*, the Supreme Court wrote that no person in this country is so high that he is above the law, and no officer may defy the law with impunity.** That is not rhetoric. That is the moral architecture of American government. Office does not sanctify wrongdoing. Power does not purify theft. Public title does not convert corruption into policy.... **Likewise, *Monroe v. Pape* recognized that misuse of power made possible only because an official is clothed with state authority can constitute action under color of law.**

The government’s first duty after taxpayer fraud is not public relations. It is restitution. It is investigation. It is prosecution where warranted. It is removal of corrupt officials. It is disclosure. It is recovery of funds. It is structural reform. It is apology. It is proof that the government still understands whom it serves....A government that refuses justice after defrauding its citizens forfeits the moral right to collect from them. It may still possess statutory power. It may still send notices. It may still threaten penalties. It may still command machinery. But morally, it stands exposed. **When government defrauds the citizen, it forfeits its moral claim to tax him**

HOW TO LEGALLY DECLINE A VACCINE

Solar Jaguar FB

STEP 1. Do not 'refuse' a vaccine otherwise you'll be considered belligerent. Instead you can politely decline their services by doing the following.

STEP 2. Ask the doctor if the vaccine has MRC-5 in it (they all do, these are aborted fetal cells and other DNA). If it does, you have the right to decline.

STEP 3. Also ask if there is a possibility of a "latrogenic reaction" (an adverse reaction caused by multiple compounds or drugs interacting with each other) from the vaccine (they all do). When the doctor says, "Yes it does", that's your "Get Out of Vaccine Jail Free Card". Thank the doctor for their offer and walk away.

Remember, doctors have sworn the Hippocratic Oath (which is to do no harm) and they **MUST** honour it. This is how we can legally (and respectfully) decline their offered mandated services and there is absolutely **NOTHING** they can do about it! Now you know!
