

REDEDICATION OF AMERICA TO GOD | LIVE FROM WASHINGTON DC 5.17.26 9AM EST 8 hours

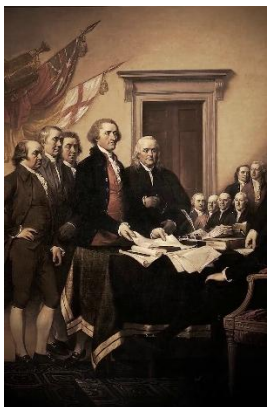

Today, Americans will come together again as one Nation under God. ❤️ 🙏

The Story of America: The Laws of Nature and Nature's God

The Founders Likely Built the Most Famous Phrase in the Declaration of Independence from a Christian Sermon The famous second paragraph of the Declaration of Independence likely drew its phrasing from a sermon delivered in the early 1700s by John Wise, a Christian preacher from Ipswich, just north of Boston, Massachusetts. Wise's sermons also addressed the issue of no taxation without representation, and just government coming from the consent of the governed. These ideas are found in the Declaration of Independence as well.

Sec. of State Marco Rubio: 250 years ago our forefathers gathered for a national day of fasting and prayer. Today, Americans are coming together again as ONE NATION UNDER GOD, exactly who we are and who we've always been! The revival is unstoppable. <https://t.me/amerbulletin/42746> VIDEO

Speaker Johnson declares our Rights come from God— Not government, reaffirming that America's rights come from our Creator and Heavenly Father, echoing the Founders' bold declaration of self-evident truth. He called on God to deliver the nation from evil, oppression, injustice, and tyranny at

home and abroad, and prayed for continued mercy and guidance. Johnson also asked for strength, wisdom, and prudence for President Donald J. Trump, the 47th President, as he leads the nation in accordance with God's will.

Sec. of WAR Pete Hegseth said it PERFECTLY before thousands of Christians. "Washington bows his head. Amid all the bleak nights, the loss and despair, the lack of proper support, George Washington performed a profound act. He prayed, and on this day of rededicate 250, let us follow George Washington's example." "Let us pray as he did. Let us pray without ceasing." "Let us pray for our nation on bended knee. And let us ask our Lord and Savior, Jesus Christ, as Washington did on that momentous day. So help us God." "May God bless you, and may God continue to bless our great Republic."

DNI Tulsi Gabbard said it perfectly before Thousands on the National Mall. "All of us, and all of our leaders, need to get on our knees and prostrate ourselves before the Supreme Lord, acknowledging that we are totally dependent upon Him for our success, indeed, for our survival." "We are at this time totally dependent upon God to light our path so that we can successfully navigate the troubled waters that we are in, into a future where our children and their children and generations for hundreds and thousands of years can live in peace, freedom, and prosperity." "So on this day, let us humble ourselves before God. Let us beg for His mercy and guidance."

He will no longer terrorize the people of Africa, or help plan operations to target Americans. With his removal, ISIS's global operation is greatly diminished. BREAKING: A nationalist plan to immensely surge deportation of migrants in Europe has just PASSED the European Parliament, a major blow to the elitist leftists who want the 3rd world to destroy the West

KEEP PUSHING, EUROPE!

You can and MUST save yourselves

official.maganews

Europe is finally waking up.

A major nationalist plan for a massive surge in migrant deportations has just passed the European Parliament — a direct blow to the open-border globalists and elitist leftists who have spent years flooding the West with unchecked migration. After years of crime, chaos, cultural erosion, and strained resources, more European nations are choosing sovereignty, security, and their own citizens first. This is what real change looks like when people reject the suicidal policies of mass migration. Keep pushing, Europe — your survival depends on it. You can and must save yourselves.

🔥 **It took 50 years, but the truth is finally out. The Warren Commission lied. The government covered it up.** JFK's assassination was not the act of a lone gunman — it was a full-blown military intelligence coup. SCREW YOU, LBJ. I always smelled a Rat, and you were the Big one. **JFK had signed The Tonkin Act, effecting pulling all troops out of Southeast Asia-(Vietnam).** Lady Byrd Johnson owned control and interest in Kellogg Brown & Root, later merge KBR, INC, Halliburton, Inc. who made most of the munitions the United States Military used to fight the Vietnam War. Just one small piece of the puzzle. **Part - The Military Industrial Complex.** The day after JFK was assassinated, President Lyndon Baines Johnson rescinded the Tonkin Act, giving President Lyndon Baines Johnson authority to increase involvement in the war between North and South Vietnam. Declassified documents released January 30, 2025, expose what many of us have long suspected: **JFK was murdered by the very system he tried to dismantle.** **He challenged the Federal Reserve, the CIA, and the shadow elite.** He signed Executive Order 11110 to return to sound money. **Within months, he was dead.** And what followed was decades of lies, cover-ups, and silencing of truth. The files reveal CIA death squads (Operation Execute), a "JFK hit memo" from the Federal Reserve, and names like E. Howard Hunt, David Atlee Phillips, and even George H.W. Bush linked to that dark day in Dallas. **Even more chilling — JFK knew they were coming for him. A newly surfaced audio tape confirms it. "They'll come for me soon... But if I fall, let history know I tried to warn them."** Remind you of anyone??? The parallels to **President Donald J. Trump** are right in front of us. Two men, decades apart, both targeted by **the same Deep State machine.** **Both tried to return power to the people. Both exposed the lies of the industrial and financial slavery system. And both paid — or are paying — the price for defying the system.** JFK's death was the day America lost its innocence. But January 30, 2025, was the day the veil was finally lifted. History isn't just repeating — it's screaming at us. The question is: are we listening now??? 🤔 — Gary Anderson/Tim McCoy **MAKE AMERICA GREAT AGAIN!** → [Catturd](#) 🐱

OUR BODY, OUR LIFE! The human body has an organ that was classified in 1952. They just declassified it. You have 79 organs. That's what medical school teaches. That's what every anatomy textbook prints. That's what every doctor believes. You have 80. **The 80th organ was identified in 1953 by a military research team at Walter Reed Army Medical Center. It was documented. Photographed. Biopsied. Its function was mapped over a 7-year study involving 4,000 soldiers.** **Then it was classified.** Removed from every medical textbook. Erased from every anatomy curriculum. Every researcher involved was transferred to classified programs. Every paper was sealed. For 73 years, doctors have been operating on human bodies without knowing that an entire organ exists. An organ they've seen — touched — cut through during surgeries — and dismissed as "connective tissue" or "fatty deposits" because their training told them nothing was there. ▲ **The organ is located in the solar plexus region. Between the stomach and the spine. Approximately 4 centimeters in diameter.** It appears on imaging as a dense cluster that radiologists have been trained to ignore — categorized in medical literature as "benign peritoneal inclusion" requiring no further investigation.

It's not benign. It's not an inclusion. It's a functioning organ with a dedicated blood supply, neural connections to the brain stem,

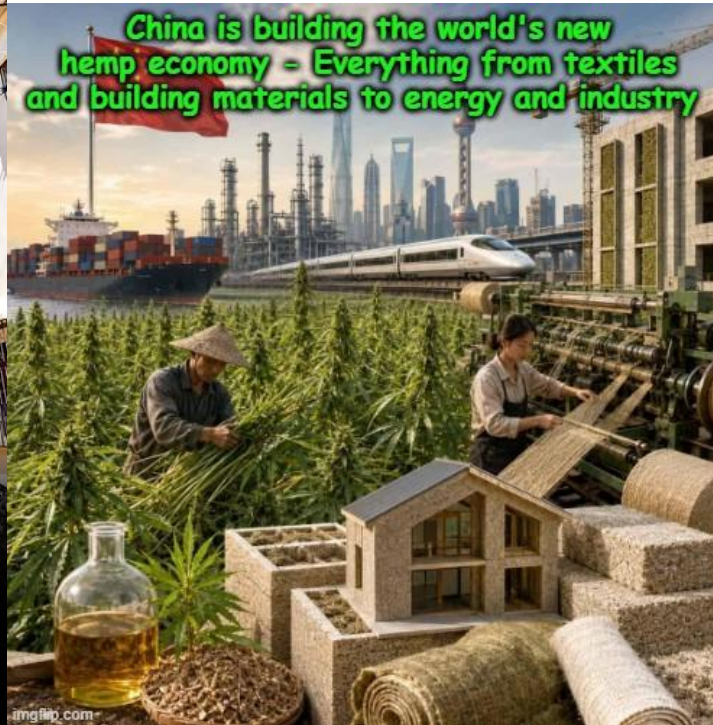

and — according to the declassified documents — a unique electromagnetic output that no other organ in the body produces. **The military study called it the "Nexus Body." Its function: translation of electromagnetic environmental frequencies into neurochemical signals. In plain language — it's the organ that connects your biology to the energy field around you. Intuition. Gut feeling. The sensation of being watched. The knowledge that something is wrong before evidence confirms it. Every human experience that science dismissed as "psychological" is actually physiological. Generated by an organ they hid from you. ▲ Why classify an organ?** Because an organ that connects human consciousness to external energy fields is an organ that can be stimulated. Enhanced. Activated. **A population with a fully functioning Nexus Body would sense deception instinctively. Would feel manipulation before it took hold. Would know — in their body, not their mind — when they were being lied to. You can't control a population that can physically feel when it's being controlled. So they suppressed it. They designed pharmaceuticals that calcify it — the same way fluoride calcifies the pineal gland. They created food additives that inflame the surrounding tissue, reducing blood flow. They introduced electromagnetic frequencies that jam its output signal. They didn't just hide the organ from your knowledge. They disabled it in your body. ▲ The declassification — Executive Order 14119, signed last week — doesn't just acknowledge the organ's existence. It mandates that all medical schools update their curriculum within 180 days. It authorizes research funding for "Nexus Body rehabilitation protocols." It classifies the suppression as a "crime against human biological sovereignty." The organ isn't dead. It's dormant. Calcified. Jammed. But alive. In every human body on Earth. The rehabilitation protocols are already being developed. Frequency therapy. Dietary changes. Removal of the specific compounds that suppress its function. Within 6 months of proper treatment, the organ reactivates. And when it does — when 8 billion people can feel truth in their body the way they feel hunger or pain — no lie survives. No propaganda holds. No manipulation works. That's why they hid it for 73 years. And why the Alliance set it free. <https://t.me/MrKidPool17>**

A tiny bee just did what chemotherapy couldn't. Scientists in Australia discovered that honeybee venom can wipe out 100% of aggressive breast cancer cells in under 60 minutes. And the healthy cells around them? Barely touched. The breakthrough came from Dr. Ciara Duffy and her team at the Harry Perkins Institute of Medical Research, working alongside the University of Western Australia. They tested venom drawn from 312 honeybees and bumblebees across Australia, Ireland, and England. **The target:** triple-negative breast cancer and HER2-enriched breast cancer. Two of the deadliest, most stubborn forms of the disease. **The weapon: melittin.** The same tiny peptide that makes a bee sting burn. At one specific dose, melittin tore through cancer cell membranes completely within an hour. Within just 20 minutes, it shut down the chemical signals cancer cells need to grow and multiply. Bumblebee venom, which lacks melittin, did nothing. Zero effect, even at high concentrations. Scientists then recreated melittin synthetically in the lab and got almost identical results, meaning no bees need to be harmed to develop the therapy. Published in the peer-reviewed journal npj Precision Oncology, the findings are still early-stage. Human trials haven't happened yet. But one thing is clear. Nature has been hiding answers in plain sight all along, sometimes inside the smallest creatures on Earth. **Source:** Harry Perkins Institute of Medical Research / npj Precision Oncology (Dr. Ciara Duffy et

Watching Jackie in this moment, you start to understand that love does not have to be loud to be real. She does not call out or make any grand movement to draw attention to herself. Instead, Jackie simply leans in, resting her head softly against her two chicks, as if that small, quiet gesture can say everything words never could. And somehow, it does. The chicks do not respond with urgency or fuss. They remain close, calm, and still, as though they already know they are safe. There is no need to search for comfort or ask for reassurance, because Jackie is already there, offering both without hesitation. That is what makes the moment feel so powerful.

In a world that often feels hurried, where care is so often measured by big gestures and visible effort, Jackie offers something gentler. She shows that love can live in silence, in patience, in the simple act of staying near. Not everything meaningful has to be announced.

Scotland will require

new buildings.

Scotland has passed a law mandating the inclusion of "swift bricks" in all new buildings to create nesting spaces for urban birds. 🐦

These hollow blocks are integrated into the sides of buildings. They are cost-effective and help restore habitats lost due to renovations and modern insulation systems. The measure aims to halt the sharp decline of swifts, whose population has plummeted by nearly 60% since 1995. ⚠️ The regulation will also benefit other urban birds, such as sparrows and starlings, and will come into force following a 12-month technical consultation process. It is a small change in construction that could have a major impact on urban biodiversity.
