[SPACE FORCE: THE FALL OF CORPORATION AMERICA — 50 USC 1550 • EXECUTIVE ORDER 13818 • JOHN F. KENNEDY • THE FINAL JUDGMENT BEGINS - amg-news.com - American Media Group](#) Title 50 USC 1550 takes center stage as a legal cornerstone in the final battle between man and machine, truth and tyranny, divinity and deception. Executive Order 13818, signed by President Donald J. Trump, remains one of the most devastating weapons in the arsenal of freedom. Masked under the veil of sanctions and anti-corruption, EO 13818 is in truth a global trapdoor beneath the feet of every elite parasite on Earth. Together, these two forces form the legal and spiritual sword now aimed at the heart of **Corporation America** — that perverse simulation of the Republic, created not to serve, but to enslave.

Tom Homan just shut down the media's favorite talking point with one simple truth: families can be deported TOGETHER. It's that straightforward. The mainstream press has spent months fearmongering about "family separation," but here's what they won't tell you—President Trump's immigration enforcement strategy is about removing people who broke the law, not manufacturing chaos. Holan's answer exposes the radical left's dishonest framing.

America First enforcement means TARGETED ARRESTS of criminals and security threats, STRONGER BORDERS that actually work, and restoring order after years of open border madness. This isn't cruelty—it's common sense. You secure your nation, you enforce your laws, you protect your citizens. The swamp media can panic all they want. Real Americans understand: sovereignty matters, laws matter, and border security isn't negotiable.

In an official statement, Bessent declared: "Under @POTUS, the days of illegal aliens collecting taxpayer-funded benefits are over. The federal law is clear, and @USTreasury is enforcing it. American taxpayers should not be forced to foot the bill for benefits going to those who are barred by law from receiving them. These proposed regulations end the abuse, protect the integrity of the tax system, and put Americans first." The Treasury Department and IRS have proposed regulations tightening eligibility for refundable tax credits, ensuring that only U.S. citizens, U.S. nationals, and qualified aliens can receive them. A clear move to enforce existing federal law and stop the flow of taxpayer money to those illegally present in the country. [Trump Effect: Bessent Ends Tax Breaks for Illegals](#)

A lot of unconstitutional, communistic federal departments were created under demo-n-rat Jimmy Carter around 1980 including the Dept. of Education. Now you see why education in America has deteriorated and why so many knowledgeable parents are forming homeschooling groups which are key to restoring educational excellence and reinstating our American values and Republic.

US Secretary Linda McMahon issued her National Call to Action on August 3rd. She asked every postsecondary institution in America to publish, by end of 2026, a public statement addressing seven areas: merit-based admissions, free speech on campus, intellectual diversity in faculty hiring, affordability, academic rigor in the age of AI, protection from foreign influence, and workforce readiness.

Mystery & Drama 🇪🇺 SHOCK IN BRUSSELS: EUROPE JUST VOTED FOR MASS DEPORTATIONS – AND IT'S HUGE! ⚡🇪🇺

They thought Europe would surrender... but the tide has turned dramatically! In a stunning landslide, the European Parliament has approved sweeping new deportation rules with a vote of 389 to 206. Center-right parties teamed up with conservatives and patriots to ram through the toughest deportation framework in over a century: longer detentions, stricter returns, offshore deportation hubs, and lifetime bans for security risks. **Germany is gearing up to repatriate almost 800,000 Syrians. Return centers in Africa are already in negotiation.** The politicians who once called this “extremism” are now doing what the people have begged for years. **The great globalist experiment is collapsing before our eyes. Europe is taking back control — and the shift feels permanent. This is history in the making. A real turning point for the continent and the entire West.**

In April, I signed a very important Executive Order to accelerate medical treatments for serious mental illness — Specifically, psychedelic drugs, including IBOGAINE. This is something that has helped so many of our amazing VETERANS and true American Heroes who were here in the Oval Office with me, and Joe Rogan. Today I am announcing that Secretary Kennedy has received a Historic Gift from the University of Miami, who has given the Federal Government its original 1994 Ibogaine Investigational New Drug application. This will give everyone direct access to the foundational FDA authorization to accelerate its development as a medical treatment in the U.S. This is HUGE! Special THANK YOU to the University of Miami, who has done this to ensure that Americans are helped as quickly as possible. This adds to the INCREDIBLE PROGRESS since April, including huge amounts of HHS research funding, collaboration between HHS and VA, FDA guidance, and more. We are moving FAST, so that our Veterans with serious mental illness have a RIGHT TO TRY here in the U.S. We hope to see more companies and institutions join us in this very important work. Our Veterans DESERVE it! Thank you for your attention to this matter. President DONALD J. TRUMP

A Japanese immunologist spent 20 years proving trees release airborne chemicals that boost your immune system. 🌲💊

A Japanese immunologist spent two decades studying how spending time among trees affects the human body. Research led by Dr. Qing Li found that trees release natural airborne compounds called phytoncides. When humans breathe forest air, these chemicals enter the bloodstream, resulting in lower stress hormones and measurable, positive immune changes that can last for days.

A tribal nation just banned big tech from building data centers on its land. The Cherokee Nation announced a ban on hyperscale data center construction on all tribally owned and trust land 🌍. The decision followed months of research and a survey of over fifteen hundred citizens. Sixty four percent opposed the projects while only fourteen percent supported them. Officials cited concerns about water energy air quality noise and protection of cultural sites 🌍.

Principal Chief Chuck Hoskin Junior said the tribe must protect its people and lands from these threats 💙. This move shows how communities are pushing back as data centers spread rapidly across the country. Sovereignty means deciding what happens on your own land.

RFK Jr. says 26,000 farmers have applied to transition to regenerative agriculture. USDA has allocated \$700 million to help conventional farmers make the switch. The response is the largest the agency has ever seen. Regenerative agriculture can rebuild depleted soil, improve water retention, and produce more nutrient-dense food. It can also reduce farmers' dependence on costly chemical inputs and open access to foreign markets that restrict American produce over chemical use.

Farmers want healthier soil, stronger farms, and healthier families.
