Checkmate: Trump and Putin Outmaneuver the Globalist War Machine

Putin just agreed to contribute \$1 billion from the frozen Russian assets to fund Trump's Board of Peace, with the remainder earmarked for rebuilding territories damaged by the Ukraine war once a peace deal is signed. They have effectively forced the globalist cartel into a corner it can't easily escape. It's genius! Those funds were frozen under the pretext of morality and punishment, but in reality they became leverage and temptation. **The conflict in Ukraine, as we know, is one of the largest money-laundering operations in modern history, a black hole where Western taxpayer money and seized assets disappeared behind NGOs, contractors, shell companies, and political kickbacks that buy gold toilets.**

If the money is formally redirected toward peace and reconstruction, how can the EU globalists justify keeping it frozen without openly admitting the truth, that the goal was never justice, never Ukraine, never democracy, but control and extraction? This is why the move is genius, because it reframes frozen assets not as spoils of war, but as hostages to peace, and it exposes anyone blocking the release of funds as an obstacle to rebuilding and reconciliation. That's checkmate.

Together, Trump and Putin have created a situation where the globalist middlemen lose their favourite cover story. No more endless war to justify endless laundering, no more "temporary freezes" that become permanent theft. If peace is on the table and money is allocated to rebuild, then those still clutching the funds are no longer arbiters of justice, they're looters caught mid-heist. (Which is what they are). This isn't just about Ukraine, it's about dismantling the financial war machine that feeds on chaos. And that's why this move is a massive blow to the WEF puppets; because once peace becomes profitable and war becomes exposed as a racket, the entire globalist model collapses under its own hypocrisy.

Globalization has failed the West and the United States of America. It's a failed policy. It is what the WEF has stood for, which is export offshore, far-shore, find the cheapest labor in the world and the world is a better place for it. The fact is, it has left America behind. It has left the American worker behind. And what we are here to say is that America First is a different model—one that we encourage other countries to consider—which is that our workers come first. We can have policies that impact our workers. <https://youtu.be/JpHmuVZ-Pdg> 2 Min.

HISTORIC SUMMIT: ALL 34 WESTERN HEMISPHERE MILITARIES CONVENING FEBRUARY 11

General Dan Caine just called the first-ever full assembly of military leaders from every nation in the Western Hemisphere. This doesn't happen by accident. You don't summon every military chief in the region unless you're coordinating something massive. Drug cartels. Regional realignment. All of it probably. The message is unmistakable: Washington's consolidating control over the entire hemisphere militarily. No country gets to sit this one out. This is power projection at the highest level. DENVER, Colo., Aug. 28.—Demonstrations are being made on the streets of Denver of a new electric generator that is claimed by the inventors to take electricity from the air.

The inventors are J. E. Ammann of Denver, and his brother, C. E. Ammann of Spokane, Wash.

To demonstrate, the brothers borrowed an old electric auto, took out the batteries, and after roping their new "atmospheric generator" fast, they got in and rode off at high speed.

"There is nothing inside the drum that moves; the contents consist only of iron, wire and minerals," says C. E. Ammann.

"It can be used to drive any electrical apparatus and can be made in any size."

The brothers are closely guarding their secret, and even take their "auto-child" when it is set in use to their room in the Argonaut hotel.

So far the brothers have not offered to sell their proposition.

Electrical men in Denver are waiting "to be shown," but they grant the thing works.

And people fall for it over and over again? Every election year?

If Governor Carney thinks he is going to make Canada a "Drop Off Port" for China to send goods and products into the United States, he is sorely mistaken. China will eat Canada alive, completely devour it, including the destruction of their businesses, social fabric, and general way of life. If Canada makes a deal with China, it will immediately be hit with a 100% Tariff against all Canadian goods and products coming into the U.S.A. Thank you for your attention to this matter!

Colorado? Interesting timing, right? Colorado can no longer hide from our scrutiny. It's not just corruption; it's infiltration. And the funding for this project? A "Wuhan West"? Why fund a lab like this in Colorado? The main source of money has dried up. What they're using now is funds given to states to promote vaccination for everyone—taxpayer money. When they release Tina Peters, she won't go quietly. Colorado State University has been a breeding ground for leftist ideology since the '70s. So if voter fraud underpins every Democratic victory, does it all collapse when we eliminate their ability to cheat? Stay tuned. 2020 isn't over yet—and neither are many elections before that. All roads lead to Obama.
