VP JD Vance said mass deportations are expected to accelerate in 2026, estimating that roughly 20 million criminal illegal aliens remain in the United States and that enforcement efforts must continue at full speed. He said the Admin believes the total number is about 3 million lower than when they took office 14 months ago, citing a mix of self-deportations and increased arrests and removals. Vance added that further progress will require support from a Republican-controlled House and Senate, and said current deportation levels are among the highest in U.S. history. @SGTnewsNetwork IT'S OFFICIAL: JD Vance's White House fraud task force is TARGETING Ilhan Omar for committing immigration fraud. JUST IN: Secretary of War Pete Hegseth calls out the "dishonest" media for its coverage of the war in Iran: "You're either informing the American people of the truth or you're not." "Behind every headline you write, there's a helicopter crew in the air, and behind every news banner you write, there's a battalion on the move. And behind every fake news story, there's an F-35 pilot executing a dangerous mission." My message to the media is "Get it right!!!"

Sec. of WAR Pete Hegseth confirms Trump was right all along: "They shot two failed missiles on a target 4,000km away. For years, they told the world that their missiles could only range 2,000km. Surprise! Yet again, Iran lied." "And to the world, I say London is 4,000 kilometers from Iran. Washington, D.C. is 3,300 kilometers from Venezuela, another country President Trump did something about that partnered for a long time with Iran." "So you're telling us that Iran is not a threat to the world or to the U.S., President Trump knows better!"

SecWar Pete Hegseth reveals the jaw-dropping betrayal of Hussein Obama HELPING Iran. "Many of the Iranian military factories and bases that we're systematically destroying were PAID FOR by the pallets of American cash that **Barack Obama** flew into Tehran under the Iran deal!" "You might call it an inconvenient truth." "Iran took our money and turned it into weapons and bunkers and ammo, and now we're destroying those weapons and we're righting, you're righting, Mr. President, that grievous wrong." ###

Donald Trump For President UAE Slams Door on Iran Ceasefire: No Deal Until Nuclear and Missile Threats Are Crushed
The United Arab Emirates just drew a hard line against the Iranian regime. In a blunt Wall Street Journal op-ed, Ambassador Yousef Al Otaiba declared a simple ceasefire is not enough. Tehran must have its nuclear program, ballistic missiles, drones, terror proxies, and blockade tactics dismantled for good. No more half-measures. No more letting the mullahs hold the world hostage. The UAE is ready to team up with the US and allies to reopen the Strait of Hormuz, the critical chokepoint carrying one-fifth of global oil. Iran has threatened to shut it down. The Gulf states are done playing nice with a bully that launches missiles at their ports and civilians.

This marks a sharp shift from past caution. After absorbing Iranian attacks on its territory, the UAE is prioritizing real security over empty diplomacy. Arab neighbors are waking up to the fact that Iran's aggression endangers everyone, including their own economies and people. Adding muscle to the alliance, the UAE is standing firm on its massive \$1.4 trillion investment commitment in the United States over the next decade. That money will fuel American infrastructure, energy, tech, and manufacturing, creating jobs and strengthening ties under strong leadership. While weak voices in Europe and elsewhere dither, pragmatic Gulf partners are stepping up. They see the threat clearly and want a decisive outcome that leaves Iran unable to export chaos again. This is what real regional leadership looks like: confronting evil head-on instead of appeasing it. **The message to Tehran is loud and clear: Your days of unchecked aggression are numbered. America and its growing coalition of willing partners will not back down.**

Donald Trump For President Trump's Task Force Declares War on Rampant Federal Benefits Fraud FTC Chairman **Andrew Ferguson** is sounding the alarm and rolling up sleeves to clean house. Following **President Trump's March 16 executive order**, a new interagency task force is now in full swing to crush **fraud that's been bleeding American taxpayers dry for years**. Ferguson laid it out straight: "Our work on this task force will be to develop a comprehensive national strategy to combat the corruption of our federal benefits programs and to assist the Department of Justice in prosecuting those who have corrupted them." He didn't mince words about the scale of the disaster. "**Fraud in our federal benefits programs is an existential crisis for those programs. The Government**

Accountability Office estimates that **fraud in just Medicare and SNAP alone costs taxpayers between \$233 and \$521 billion every single year.**"

The previous administration looked the other way while scammers, loophole artists, and outright crooks looted the system. "For years, the previous administration turned a blind eye to this crisis," Ferguson said. "They allowed these programs to be corrupted and they allowed the American people to lose faith in the integrity of our government." **No more. This administration is done with excuses. "This administration will not make the same mistake. We will work with our partners at the Department of Justice to root out this fraud and to prosecute those responsible."** The goal is simple and overdue: protect real Americans who need the safety net while slamming the door **on parasites**. "**We owe it to the American people, and we especially owe it to the legitimate recipients of these programs, to restore integrity to these vital safety net programs.**"

With Vice President JD Vance chairing the effort and Ferguson as vice chair, the task force is coordinating across agencies to tighten eligibility, plug holes, and deliver real prosecutions. **After years of waste fueling bigger government and deeper debt**, taxpayers finally have leaders treating their hard-earned money like it's worth defending. Action over talk—this is how you start fixing a broken system.

THE REAL MEANING OF THE WIZARD OF OZ, WHAT THEY HID FROM YOU. (OZ = Ounces of Gold. The Yellow Brick Road = The Gold Standard.) They told us it was a children’s story. It was actually a warning about bankers, courts, corporations, and the legal fiction system. Here’s the truth:

🧠 **THE STRAW MAN** Not a real man, a legal creation. He receives a certificate instead of a brain... just like we receive a Birth Certificate that creates the ALL-CAPS legal PERSON.

🔧 **THE TIN MAN** (TIN = Taxpayer Identification Number) A soulless machine that works until it freezes and collapses. The symbol of the worker who becomes “rusted out” by nonstop taxation and labour.

🦁 **THE COWARDLY LION** Loud roar, no courage. Just like politicians, judges and officials with titles but no true authority.

🔥 **THE WIZARD** Smoke, fire, and a giant hologram head... but behind the curtain is just a scared little man. A perfect metaphor for modern government: Illusion of authority Backed by fear No real power once the curtain is pulled back

🪄 **THE WICKED WITCH** (BAR & Policy Enforcers) Controls the flying monkeys, the police. Intimidation, threats, fear. She melts when exposed to truth and lawful jurisdiction.

🌺 **THE POPPY FIELD** Dorothy collapses — drugged. The others don’t — because they’re not real humans. A warning about Rockefeller medicine and mass sedation.

🐶 **TOTO** (Truth, Totality) Toto = “in toto” = “the whole truth.” Small, unnoticed, but fearless. Toto pulls the curtain and exposes the illusion. That’s why the Witch wanted him —not Dorothy. Truth is the biggest threat to the system.

⚡ **THE VEIL IS FALLING.** The Wizard of Oz wasn’t fantasy. It was a coded message: The banking system is an illusion • Corporate government is a façade • Courts are theatres • The ALL-CAPS NAME is not you • The real power was always yours **One small truth collapses the whole illusion.** - Brian Clark @Free_Energy (<https://t.me/+2IEhlzBWu-ZkMmYy>) ⚡

WOW! Rep. Eli Crane Warns About Sharia Law on House Floor, arguing that Sharia law is incompatible with the U.S. Constitution and Western legal traditions. He said nations that wish to live under Sharia law already exist and warned against what he described as efforts by radicals to advance a global caliphate. Crane criticized Western leaders for allowing large-scale immigration without assimilation, claiming it has weakened national identity and stability, particularly in Europe. He argued the U.S. must guard against ideological subversion at home, defend constitutional principles rooted in individual liberty, and reject any system based on religious authoritarianism. @SGTnewsNetwork

Donald Trump For President US Navy Hammers Iran with Tomahawk Barrage After IRGC Attack on American Troops

The Iranian regime just learned a hard lesson in consequences. After **the IRGC launched missiles and drones at Prince Sultan Air Base in Saudi Arabia, wounding at least 10 US troops and damaging American aircraft, the US Navy responded with force. Tomahawk cruise missiles rained down on IRGC targets across Iran, delivering precise payback from the sea.** This strike fits the pattern of America's no-nonsense campaign in the escalating conflict. US forces have already pounded over a thousand Iranian military sites, smashing command centers, naval assets, and missile infrastructure since the fighting intensified in March. Weakness invites aggression. Strength ends it.

The mullahs and their terror proxies keep testing American resolve, **hiding behind proxies and civilian areas** while American service members bleed on allied soil. But the United States isn't backing down. **When our troops are hit, we hit back harder, faster, and smarter.** **Iran's playbook of proxies, drones, and missiles is failing** against superior American firepower. **The regime's days of unchecked attacks** on US interests and our partners are numbered. **Peace th**

rough strength isn't a slogan. It's policy in action.

Stay vigilant. The fight continues until the threat is neutralized.
