Effective IMMEDIATELY, I have ordered the United States Development Finance Corporation (DFC) to provide, at a very reasonable price, political risk insurance and guarantees for the Financial Security of ALL Maritime Trade, especially Energy, traveling through the Gulf. This will be available to all Shipping Lines. If necessary, the United States Navy will begin escorting tankers through the Strait of Hormuz, as soon as possible. No matter what, the United States will ensure the FREE FLOW of ENERGY to the WORLD. The United States' ECONOMIC and MILITARY MIGHT is the GREATEST ON EARTH — More actions to come. Thank you for your attention to this matter! President DONALD J. TRUMP

The components. The guidance systems. The technical expertise. All from Beijing. Peter Schweizer just exposed the hidden axis arming Iran—and how Trump's strikes obliterated China's strategic position overnight. **Here's what Beijing doesn't want you to know:** China provided their most advanced air defense systems to Iran. U.S. and Israeli forces decimated them completely. Over \$100 billion in Chinese investments in Iran—mostly loans Beijing will never recover. Iran and Venezuela? That was 20% of China's

oil supply, bought at massive discounts, paid without U.S. dollars. Trump just eliminated both sources in one move. **Now China faces a nightmare scenario:** Forced back to global oil markets. Paying in American dollars. 40% of their oil flows through the Strait of Hormuz—which Trump now effectively controls. Any move on Taiwan? Catastrophic for Beijing. Remember 2020 when China threatened to withhold PPE during Covid? Remember their rare earth threats? Trump just reversed every bit of leverage they had. **China armed Iran with 5,000 missiles by 2027, potentially 10,000 by decade's end.** Precision guidance systems that transformed inaccurate rockets into weapons capable of striking downtown Abu Dhabi. **They industrialized Iran's capacity to hold the Middle East at gunpoint.** Then **Trump destroyed it all.** Spring negotiations with **President Xi** are coming. **Trump's sitting at the table holding every single card. President Trump** once again tells Republicans something he's said repeatedly: **pass the SAVE America Act — and stop watering it down.** The president took to Truth Social Thursday morning with a direct [message](#) to lawmakers on Capitol Hill, calling the election integrity bill a defining issue for the country and urging Republicans to treat it like one. "The Republicans MUST DO, with PASSION, and at the expense of everything else, THE SAVE AMERICA ACT — And not the watered down version," Trump wrote. **Donald Trump For President House Republicans Draw a Hard Line: No Senate Bills Until SAVE Act Passes**  
Rep. Nancy Mace is fed up with Senate Majority Leader John Thune's refusal to bring the Safeguard American Voter Eligibility (SAVE) Act to a vote. Her message is crystal clear: why give the Senate any wins when they won't protect American elections? Mace fired off a direct shot in response to incoming Senate legislation, declaring we should stop processing anything for them until the SAVE Act advances. No more rewards for Thune while he stalls on the one bill that ensures only U.S. citizens vote in federal elections. This isn't about politics as usual—it's about election integrity. The House has repeatedly passed versions of the SAVE Act, demanding proof of citizenship and photo ID to register and vote federally. Yet the Senate drags its feet, letting non-citizens potentially influence our democracy. Mace and allies like Rep. Anna Paulina Luna see the pattern: the upper chamber gets what it wants while ignoring the will of American voters.

**Rep. Andy Ogles announced he is filing legislation to ban immigration to the United States from several predominantly Muslim nations,** arguing that large-scale Islamic immigration has brought destructive consequences. The proposal, supported by Florida Reps. Randy Fine and Byron Donalds, would amend the Immigration and Nationality Act to bar entry of aliens from countries such as Iran, Libya, North Korea, Syria, and Yemen under a bill titled the "Halt Immigration from Countries with Inadequate Verification Capabilities Act," according to Fox News. <https://t.me/SGTNewsNetwork/128097>

Thank you, President Trump, for appointing me as the Special Envoy for the Shield of the Americas. Sec. Rubio and Sec. War are incredible leaders and I look forward to working with them closely to dismantle cartels that have poured drugs into our nation and killed our children and grandchildren. . . . The Western Hemisphere is absolutely critical for U.S. security. In this new role, I will be able to build on the partnerships and national security expertise, I forged over the last 13 months as Secretary of Homeland Security. . . . We have made historic accomplishments at the Department of Homeland Security to make America safe again: we delivered the MOST secure border in American history, 3 million illegal aliens have left the U.S., we have located 145,000 children, FEMA delivered disaster relief at a 100% faster rate, we ushered in the golden age of travel, saved the American taxpayer \$13 billion and revitalized the U.S. Coast Guard. **Secretary Kristi Noem** (<https://x.com/i/status/2029647010002055467?mx=2>)

WOW! A moment resurfaces where DHS Secretary nominee Markwayne Mullin recalled that during the 2020 campaign, Donald Trump dropped everything to visit Mullin's young son in a hospital after a serious wrestling accident, flying to Bakersfield, California, sitting with him and encouraging him while refusing to leave even when aides urged him to catch his plane, with Mullin saying there were no cameras and Trump only cared about helping his son, a gesture he says shows the kind of person Trump is and why they will work well together. <https://t.me/SGTNewsNetwork/128112> VIDEO

For decades the FDA was loaded with an unAmerican, new world 'odor' element that was methodically destroying our local meat processors who had operated cleanly and safely for decades. In their place these domestic enemies helped establish foreign corporations who now process most of our meat. I'm thankful to see our farmers and ranchers banding together to restore our original American-run meat processing. We the people can help by finding local butchers who source their meat from local producers or finding farms and ranchers on line from which healthy, American grown and processed products can be purchased.

Meeting with national leaders to advocate for independent farmers and ranchers across the country.

### I love Gardening Based in Switzerland

Gardening is not only beneficial for the environment, but it also has positive effects on our mental and physical health. The smell of soil has been shown to increase serotonin, helping to boost your mood and reduce stress. Digging in the dirt, with the soil under your fingernails, is also good for your gut health, proving that gardening connects mind, body, and nature in a unique way.

Additionally, gardening can help reduce symptoms of ADHD, anxiety, and depression, offering a therapeutic experience that brings us closer to the earth. The simple act of planting and nurturing life can improve self-esteem and provide a sense of accomplishment as you watch your garden grow.

Gardening is more than just a hobby; it's a path to a happier, healthier life. Whether you're tending to flowers or growing your own food, the benefits are undeniable. 🌻🌱
