Marjorie Taylor Greene: "You are 100% funded by demo-rats who donate to demo-rats. You don't care about the American people. You are lying! The sad thing for you is that the American people elected President Trump and his agenda. And Republicans lead the country because you guys suck so bad!!!" <https://twitter.com/i/status/1869130808314954071>

Rep. Eric Burlison: Raise your hand if you want every (R) in the house to Vote NO on the CR bill If Mike Johnson passes this CR with the help of Democrats, he needs to be removed as Speaker in the next Congress... this ends now. <https://x.com/i/status/1869189770196533525>

Rep. Andrew Clyde: The American people didn't give Republicans a mandate to continue the Swamp's status quo of 1,500+ page unpaid-for spending bills. I'm a hard NO.  
<https://x.com/i/status/1869396011967496344>

Vivek Ramaswamy: "I wanted to read the full 1,500+ page bill & speak with key leaders before forming an opinion. Having done that, here's my view: it's full of excessive spending, special interest giveaways & pork barrel politics. If Congress wants to get serious about government efficiency, they should VOTE NO. Keeping the government open until March 14 will cost ~\$380BN by itself, but the true cost of this omnibus CR is far greater due to new spending. ...The bill could have easily been under 20 pages. Instead, there are dozens of unrelated policy items crammed into the 1,547 pages of this bill. ...The bill should fail. (19) Vivek Ramaswamy on X: "I wanted to read the full 1,500+ page bill & speak with key leaders before forming an opinion. Having done that, here's my view: it's full of excessive spending, special interest giveaways & pork barrel politics. If Congress wants to get serious about government efficiency, they" / X

Trump warns Canada and Mexico are “on notice” to halt ALL flows of illegals and drugs. “We’re subsidizing them. That can’t go on. Why are we supporting and giving other countries hundreds of billions of dollars? It’s not fair.” <https://x.com/i/status/1868697495204765947>

Tom Fitton@TomFitton SHUT IT DOWN! Republican House repeatedly funds "continuing resolutions" to support Left-Biden agenda (see flashback vid below). They are about to do it again--funding Biden invasion while, for example, doing nothing about non-citizen voting reform, etc. Call your reps NOW -- 202-225-3121 <https://x.com/i/status/1868719545159966813>

**Dr. Mercola:** Clinical studies show melatonin supplementation improves cognitive function in Alzheimer's patients, with decreased melatonin levels serving as an early indicator of the disease. Melatonin functions as a powerful antioxidant, supports immune system health, aids reproductive success, reduces post-operative pain and has anticancer properties; it also helps maintain the integrity of your blood-brain barrier, an important defense that keeps harmful substances out of your brain. Natural melatonin production can be optimized through morning sunlight exposure, minimizing evening blue light, maintaining a dark bedroom and reducing stress before bedtime.

A recent scam has been showing up in many states. We have not had any local reports, but want to make residents aware before you are victimized.

A "brushing" scam is when someone receives an unexpected gift or item not ordered in the mail from a place like Amazon or other company. Examples of gifts include, rings, bracelets, necklaces, Bluetooth speaker, etc. The gift will have the recipient's address, but not include the sender's information or be from a known retailer.

When the recipient opens the package to see what it is and possibly who sent it, there is a QR code to scan to find out who sent the gift.

Once the code is scanned, all the information from that phone will be sent to scammers. They receive all access to the phone. All personal and financial information is accessible to the scammers and often the victim's bank accounts are drained.

The gift can be kept or thrown away, but the QR code should NOT be scanned for any reason. QR code scams are nothing new. These scams show up in all places, including parking meters.

Inform your family members about the scam and avoid scanning any unknown QR codes included in

### **Ultra-Processed Food Companies Face Legal Scrutiny for Targeting Children**

A Pennsylvania teen with chronic diseases is suing food companies for not warning consumers of the dangers of eating chemically-laden food. [Ultra-Processed Food Companies Face Legal Scrutiny for Targeting Children | The Epoch Times](#)

**Dr. Mercola: Seed oils are adding to obesity.** Smoke point is not a reliable indicator of cooking oil safety; oxidative stability and PUFA content are the key factors in determining an oil's suitability for cooking. **Tallow and ghee are best for high heat, while butter and coconut oil are ideal for medium heat.** Olive oil should be used sparingly due to its high monounsaturated fatty acid content. **When vegetable oils are heated, they produce harmful compounds called Lipid Oxidation Products (LOPs), particularly 4-HNE, which are linked to neurodegenerative diseases, cardiovascular problems, cancer, and chronic inflammation.** Restaurant fried foods are particularly concerning as establishments typically reuse the same vegetable oil hundreds of times before replacement, leading to accumulation of toxic compounds that transfer directly to food.

**Dr. Mercola: Why animal fats are superior:** Vitamin K2, found exclusively in animal fats and fermented foods, is essential for metabolic health, serving as an emergency electron carrier during cellular reductive stress. Unlike plant-based oils, animal fats provide vitamin K2, which helps regulate calcium distribution, ensuring it's deposited in bones and teeth rather than arteries and kidneys. Research indicates higher dietary vitamin K2 intake reduces the risk of coronary heart disease mortality and severe aortic calcification, unlike vitamin K1 found in plants. While gut bacteria can produce vitamin K2, its absorption is limited due to production location and bacterial binding, making dietary sources crucial for optimal intake. Pasture-raised animal products are superior sources of K2, with pastured chicken eggs containing 3 to 4 times more K2 than conventional eggs.
