House Overturns Controversial SCOTUS Ruling – Not What Our Founders Intended

[House Overturns Controversial SCOTUS Ruling - Not What Our Founders Intended — The Republic Brief](#)

Thanks to: dc Russian President Vladimir Putin put the West on notice yesterday during his speech at the St. Petersburg International Economic Forum (SPIEF). President Putin made clear he knows the West is planning on supplying fighter jets to Ukraine, and that the US insists the F-16's be nuclear capable. He pointed out that those jets, especially **U.S. F-16's**, require very large and complicated maintenance, which cannot now be done in Ukraine without fear of being hit with Russian missiles. Thus it would be necessary for the planes to use bases that are presently safe. Therefore, he said, if those fighter jets takeoff from **NATO bases** outside Ukraine, and enter Ukraine for battle, Russia will not be able to know if those planes are armed with Tactical nuclear bombs and will have to assume **THEY ARE**. Under such circumstances, Russia will have no choice but to hit those NATO Bases, and may have to do so with Tactical nuclear weapons. Below, video from the SPIEF where Putin talks about this. The video has English sub-titles but is only a small portion of what Putin said. You get the jist of it: <https://haltturnerradioshow.com/index.php/en/news-page/world/president-of-russia-publicly-announces-conditions-where-russia-will-bomb-nato-bases> Well THAT otta do it!

THE SCHUMANN RESONANCE HAS NEVER REGISTERED LIKE THIS IN THE HISTORY OF THESE GRAPHS - It Hit 190hz Earlier Today:

Something incredible happened today during the Gemini New Moon. For those who are unaware the the Schumann Resonance is the Earth's frequency usually measuring 7.83hz and overnight it went to 190hz. The frequency of Earth created patterns never seen before. There is thought to signal the Earth was set free from all claims and holds from any nefarious races around the universe. Whatever is happening it's another indication that this week's Solstice on 21st will be a powerful acceleration portal and will continue the upgrades stimulated by the Schumann.

UPDATE: Please see Audrey Webster's comment and my response to her below, so you can be aware of both sides of the story and decide for yourselves. Regardless of the Schumann situation, I KNOW some major things were accomplished in the event for humanity and the planet and that's what's important. ❤️

Something weird falls from sky over Gulf of Mexico caught by fishermen: https://t.me/SGQ_17/25

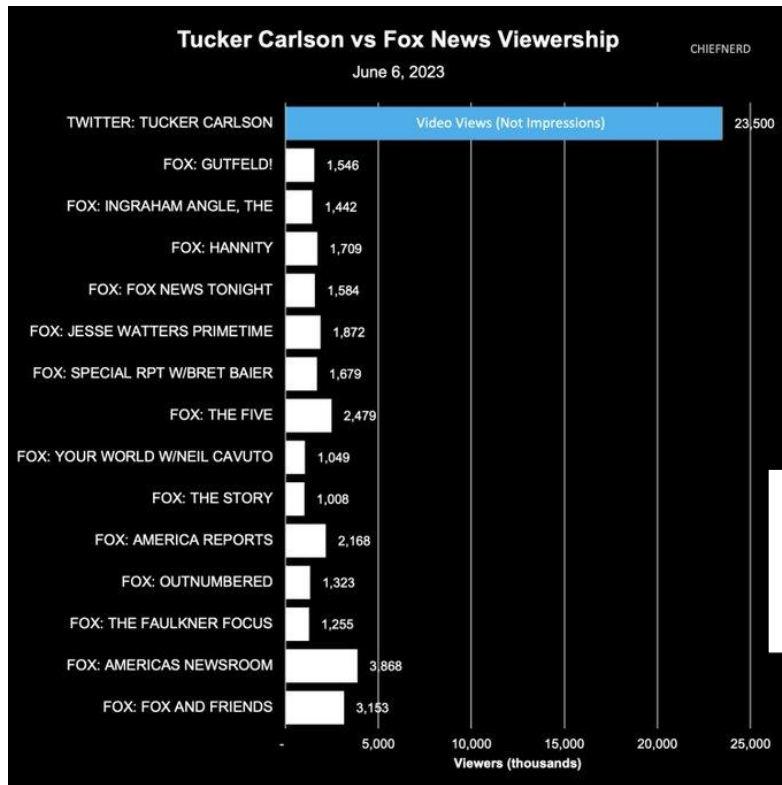

You remember the “search for Red October”. And you remember the sinking of the Titanic (actually was a sister ship, (do your research). The sinking of The Titanic ushered in the Federal Reserve... So here we are with the demise of their \$ made from thin air and near worthless dollar/debt note and on mainstream news the Titanic is top coverage.

I love synchronicities . Janet Lee

How likely is it that state and federal officials are ignoring evidence of widespread election fraud?

Survey of 1,003 US Likely Voters conducted June 7-11, 2023
by Rasmussen Reports, MOE +/- 3%

Rasmussen just released a poll that backs up the fact that we are not alone in knowing there is widespread voter fraud. In fact, it is the media and political elites that are alone!
