

ATTN members from the USA,

Here is the plan that has been set forth by OneLife/OneCoin. From the description, in our opinion, it appears that this could take some time for each country's approval. Once Konstantin's case gets resolved, then perhaps we will see the USA added to the plan...Let's pray it is so!

Please don't ask questions about this, because we have no answers. We just thought we would share what has been shared with us, so that we all know things are still active behind-the-scenes, and moving in the right direction.

P.S. You now have to use a VPN if you are in the USA and want to access the NewDealShaker.com platform.
