

OneLife Weekly Webinar – August 21, 2019 (1 hr 36 min video) - CC Text

20190821_9 Mths Plan After Exchange

<https://www.youtube.com/watch?v=jN2noTfhqYM&feature=youtu.be>

Awareness Day at their 1600 CET time it is scheduled on 1600 CET time which we are going to start right now what you have seen just now is some videos above we play for about 15 minutes it is one of the video about our CSR program our from from a vietnam team which is the famous bridge building in vietnam and also to expose video one is in Thailand Bangkok last year December 2018 and the other one is in Singapore which is a September 2018

so once again welcome everyone or our one live community members all over the world globally

my name is fred falke I am a GOG inner circle member from Singapore and it is 9 p.m. Singapore time so here we go we will start our weekly prove our weekly webinar right now

so the objective of this webinar is we have gog members franchisees graduals to speak to you to share with you information corporate information news testimonies events activities okay - the whole one life community so so that with more and more people are aware of what is happening there will be lesser force news misleading information circulate that to the whole community right angle cause confusion

so that is the main objective of the whole weekly mentorship women are and every week you will hear from speakers from all over the world from various part of the world to share with you and tonight we have from Europe from South America and Asia speaking to you tonight right and

here we go a first speaker let me just put on my slice my intro slice just let me just give me a moment re so the first two speakers that we have tonight we have mister Queenie amorous Diamond Gog and franchisee Spain this gentleman is from an OE turn to entrepreneur he has been running restaurant for past 33 years and in 2018 he actually invested 1 million euros into his restaurant but of course we know unfortunately the timing was the financial crisis 10 and between 2009 to 2012 he lost his house his car his everything but at this time he found one new thing which is network marketing so over the past seven years he has been in this industry and in one life network he believed the vision set by dr. ruja right and he has been building this business since and he is a native Spanish speaker he will be speaking to us in Spanish and that's why we need to have a translator english-speaking translator and he is mr. Daniel Perez a diamond GOG member from and he is also the franchisee of Venezuela South America mr. Daniel is a vet by profession but he is an editor in his own magazine for the past 20 years so he knows about network marketing but he only stepping into the industry with one life network in 2016 and taking this project not only in South America by his travel the world to fulfill the company vision so we've done for her to let us bring in mr. Queenie amorous and mr. Daniel Paris

all right gentlemen are you online you can turn off your mind how are you Fred oh hi welcome welcome and are you in Spain yes in Spain to Valencia Valencia oh great great great so I will pass the mic to you gentlemen and please take the mic from here thank you

Thank You Brad but on this day neither muchisimas gracias prep or twin trophy on well with before a girlfriend thank you for your introduction now a machine - muy feliz feel about a racetrack eco park in de but also steadies I am very happy or very thankful thankful to be with you you know it's a lotta told orally discussed an IQ in conectado a la comunidad well life I would like to say hello to of the leaders that are connected and all the one nice community yo a place to attack a Muslim because he owned a parabola the loss Principia still network marketing and today we had an invitation to talk about the principles of network marketing mr. yappi he'll ever be so afraid para poder compartir known as la Mina's I would like to ask you Fred permission to share from slide okay into the cell DNA como nanoscale they can recover T - oh yes para el parque de las niñas we need that you do leave to share your your own flag and elope us you can share from your side okay from your computer Oh problem you are coho Emma yes okay thank you well por que hemos Karenin árboles principio de éxito in my life why we would like to talk about the successful principles of one knife it's a most connected mementos stop-motion el mejor momento de la compañía we think that now we are in the best moment of the company or even once a tener noticias muy importantes be confident ista muy importantes today we are going to listen some good news from different person in this webinar a cke apply submitted a personas so you can fill in Vitek more people but can you think a link for my Funes project because have you know the information is power you can use compartir con ustedes a lucas muy importante and momentous encontramos to share with you just press f1 life you just personas going be ending and network marketing network marketing this time I'll never develop the neighbor mark it's like that that is true okay dr. impressive in a good market us in other any company of network marketing for SI k DM o salar de los principio de éxito in one life network that's why we want to talk today about the principles of successful in ISA to realmente musica-san dictionary or significant a previous if you look in a dictionary the meaning of principle in contrast kept in CPS lo primero you will find the principle is the first one the spring features nada incorrecto las verduras the principle doesn't have to do anything with the values los millones son individualist the the values are independent less Principia son Universalis the principles are universal or Esso untestable our fellows principio s-- and that's why before that I talked about the principles Quirarte de las cuatro veces que todas las compañías de multiple everything super I want to talk for stage that all the company has to work or discipline in the cell paint the poor siento because if you today on the stand only the 20% hailing for my field given a second party take on do that the information that we are going with you company as the multi level you will understand that all the company of a haze on have to have to work in the four stages it's the solar setup us there are the stages formula fuel of nafion formulation or foundation concentration concentration momentum momentum estimation on a stabilization while killing prasad a network marketing any company of good marketing in a momento yamato formulation of fundación has a moment called formulation or foundation don't they I own idea where there is an idea donde todavía no sabes como el mercado a responder s idea when you already know [Music] the the public we will answer to the a bad idea yes una etapa a la que muchas compañías comienzan pero focus continue on that is a stage when a lot of company starts but not too much continue it's a tapa Dora Maximo uno dos anos de la compañía as the linnethia that stage lasts more or less one or two years at the you know a Mucha gente que yo no se la compañía practical mr. Solow's Singapura there is no people knowing that company only the few ones that start with the second that the person atop of a concentration the second stage is a concentration stage yes time for mafias muy importante para ti and that information is very important for you I should I top adonde leader s de otras compañías que no tiene gracias that is a stage when leaders from another Co or others

companies that thought when they don't have enough results which was they use made scenarios lot of them mercenaries which was their usual in quaintest more of them they delinquents enter in my company exclusive Amenti por el dinero look for a company just to earn money no entra por la misión de la compañía they don't go in the company for no real grant poor construir negocios sans they don't they are not looking to build business it's a tapa do de unos años hasta las cuatro Cinco años this stage lasts more or less from 104 two years to five three or five years each shoe sale in total as company as the network market and that happens in all the MLM company select suited air the muchas company as que no son multi-level he happen also in orders company that are not network marketing company case it is fresh and the multi-level and try to be or shows that they want to be like an Evo marketing company para Bahia de Bercy la las personas to look money from the other people pockets for a stock system parameters villain Tiaras that's why we found some pyramids our policies in the locate EOS sacar el Maximo dinero de la gente the vision of people is to turn or to take the most morning from the people duration company's reales de multilevel that's why in real network marketing companies can be ensue Fiesta tapa also happen this stage donde estas met scenarios on link when test with that mercenaries or delayed delinquents no transmitting link form assume correct don't share the correct information of the company solo Kirin dinero coordinator they just one morning a more morning confirm in America they confuse the company the people this pristiq Chanel network marketing they they don't help the name of never marketing never stupid Ally State Appa once we finished the upper stage soon etapa donde Yaga lat concentration is another stage called concentration it imported momentum of a cuatro Cinco años areas the timing of the stage is from four or five years to 20 years s cuando la compañía a super da de todos los ataques he's when the company has already offer overpass all their attacks cannon others photos and video shows make bad people don't like the company personas que si an bestowing a nyada's an investor or people that has been she cheated by the by the message the wrong message from the beginning an ese momento leaders professionalism respect other felony Austria at that moment professional leader of the industry k-11 p.m. pop cervando la compañía de that was all we're looking at company for for a time they kick in a la siesta establish they they see that the base is already stable can productos effective that the product is is acceptable que la compañía para las semanas that the they every week it is hidden in colossal embrace and they decide to come in the company vienen con mucha red they come with a lot of network being inconsistent as a duplication they come with duplication systems be an encoding trinomial two relays they come with training real training sobre multi-level is sobre duplication a movie about network marketing and about duplication in network marketing dispersed the same momentum sacral estaba is a she owned a cualquier empresa after that momentum is calm the establish a stabilization of the company in a same moment pero es una Buena Paulo dad Parent Trap in that moment it's a good opportunity to go in los gatos they angry Elba light photos company another mantra so as parents like Amway or Heather life give us that idea pero no es una super opportunity but it's not a super opportunity nosotros in well life we now in one life now FEMA's at alleged at one point we were born or we were born and through one point it was milk at or the CPM rain in 2014 September 8 Kappa reformulation that was the stage of a reformulation a tapa definition for fun - us - yes sir que paso daniel said timid of mackynzie and after one year later 2015 September accompany Isola Tonia visionary Asya the company only have with people with a good vision from Asia oh she lamented gnome we expect to Samuel minimal maybe not so expert in new market a partir del dos mil Kim said septiembre Abdullah from September or October 2015 14 post article miracle for circumstances of the initial concentration the concentration starts granddad liras compañías big pleasure from other companies they don't oportunidad saw an opportunity he entered as a foil

oppressor con fuerza and start working in the company with strong la primera tapas una etapa biochemist o menos assist our first stage was on one tier stage that was stable the pike on central Hill in English two wheeler rally Callaghan miracle then when comes the concentration mistake data that are [Music] on Greece increased seguramente Paris to momentum surely it appears alike a momentum pero también es tan todas aquellas that soros criminales but also there is the moment where we have all that criminal people e tambien we're escenarios also mercenaries que vienen pollinator calm to Monique only Kahneman Sahay equivocado la gente that gave a wrong message to people in Costa de compañía MPs a tener on the stencil and an that is the moment with the company start to go down org amperes an apricot last politicus it was a vientos because the political arm processor start he muchas de studly Dressen sacado de la compañía a lot of that leaders are go out of the company into the compressor of a hand of accuracy own so the company has start too far to rate less unless he los mismo scam la vivienda la compania under less the same people the worst yuta used to speak well about the company como esta en otra now that when how they are in other MPs an alarm and a company they start to speak bad about of the company in ese momento and the moment muchas personas do and la compañía a lot of people start to have some [Music] no questions question about the company yes a momentos muy importante that is an important moment or catalyst company a severe case tan in esta profess your passion on poco because all the company have that moment that they start up and then start down a little bit yay personas come from meatiness la compañía and there is a lot of people that are working real from the company Kasey khane kaba Honda are still there are still working oh yeah kiai muchas de us today here in this webinar a lot of them his son los que buen trabajo de la compañía and they are the the ones that with the work of the company the ceilin que esto comienza ahora decide that we are going to start now empieza on momentum and start a momentum convince a corrector with the correct message : enter corrector with the correct people con el mercado correcto with the coral markers ESO para gracias a los principio x' que teníamos cap Lokhande will happen to application from the moment porque los grandes leaders Killman entrada la compañía because the big leaders that already had not entry in the company no Kiran masked Malan formación they don't want more bad information the professional Catalonia when corporate shall accompany a professional people that we John of seven simple cheran contrasted the FISMA they know that they will always fight against the accepted paid on Akira compartir escenario condoling quaintest but they don't want to share a scenario with the delinquent in este momento Koenig min-suk adecuado that in that moment with the right message let pressure poly do not be a painted treinta foreign tiniest Amica the company will long for, 40, , 20, , 40, years in the market Jeffrey a Macau China I went up to Macau China a connoisseur la misión de la Tour Ahava Natoma to know the doctora Raja in Napa vision issue intención de tener una empresa que nuestros hijos de rerum she said that the her vision was that we had company that our shall will will have a falafel Nora she was the phone director louisian area the visionary even Castillo's hinto Appel like a steep job was the conductor of Apple in Mallorca teeny only happen the value of Apple today is por la comunidad que es happened is because of the community that one too that once this iPhone no vodka Steve Jobs to evoke esta muerto is not because he's alive but his dad is dead a nosotros podemos Cree our momentum and we can create look at all I was company as the network marketing because all the network marketing openly facade Cinco años have two long five years but at any novice a Salida to have a solid bed you gotta love get sannyas and reach the ten-year CA noona multinational do multinational enterprise in real Afectiva real effective ESO solo about career and that only will happen complete CPS with principals yet away a seed oil that I will tell you today element depends on us can we a star una hora hablando tele principles maybe you think that I will be one hour Bingham how principal pero no

tenemos el tiempo but we don't have the time porque personas más importantes pull de nosotros parity because there are more important people after off for you Connie for math Ian Moir I want a parity to negocio we are relevant information from your business on for you a secret elevator severe enough rasa so I will resume the principles in were friends la francesa más importante que yo Apprendi and network marketing the most important phrase or sentence that I have learned in network marketing porque el principio because a is easy speak about principles another techno that to appellant to get a thunder to it in your hair is a national agenda and extend Austria and you will be a legend in that industry nunca beliefs a las personas never use people Paris a yard Multan available to deal to develop network marketing who deliver multi-level use the network marketing Paris analyst Pastrana's to develop people now we are repeated I will repeat it nunca es a las personas never use people para este lugar network marketing to develop network marketing who delete the network marketing use the network marketing Baris a new yard a las personas to develop people muchisimas gracias a todos a saloon profess turnigy con ustedes thank you everybody I was a pleasure to be with you today raucous at all and people hail a shepherd but we know sister Constance and to all the GLG teams to allow us to be with you today in Afghanistan here for our army instead of Thank You Kimmy also note Ramos a las playas del mundo see you on war beaches ciao Thank You kini and Thank You Daniel for the session and sharing with us about the success of the network marketing thank you so much right it is it takes a lot of effort for people to organize in web you know like this because each and every one actually takes their time and effort to make things happened right and what you see is there from Spain so you have a different time zone from people from Asia okay and of course me being the whole today we also have a backup co-host Peter yet la is a yachtie is actually supporting us from behind just in case the host the the website goes down and there's someone else that can take up the whole event

so with that let us welcome our second speaker just give me one moment here it goes okay I got to know this person this lady in 2018 ok I got to know her during our singapore expo in September she she spoke to me and says that could you help me to and I would see him to to organize and execute the coming Expo in Thailand and I say why not you know one for all and all for one and together for more so we actually started to to do things together and I'll give my few few advice to make things happen and it happens that the Thailand Bangkok Expo in 2018 December up to to date is the most attended Expo right off of the whole do shaker two and a half years of history what we have is about 4,500 people attending that Expo in one so after which this lady has conducted a lot of trainings a lot of workshops a lot of activities in the whole of Thailand promoting the usability of the one in the local community and helping the whole world right with the common vision of the usability of one so now without further ado let us welcome miss Farr karmani sirenoid tanya soup a gog member and also the thailand franchisee sharing with us the usability of thailand and far hi right thank you thank you can fret thank you very much is yours and us hear from you from the Land of Smiles Thailand

thank you yes thank you very much good morning good afternoon and good evening while life family farmer around the world my name is Pat Thailand franchisee and TOD member first of all I want I would like to say thank you for one life company and the global leaders from around the world that we are work very hard for a dear checkered platform and do check our Expo around the world thank you for good webinar today and also give me the good chance to share out about Thailand activities and ecosystem today we the big family and we know that wanting that make be different from the the whole world cryptocurrency East we have ecosystems very strong ecosystem okay let me share my slide

please this one okay okay last five years that we heard about the cool family we have one life Emory and Tyler leaders I want to say thank you thank you or often land leaders again that the the Mayberry success full wildlife marketing in Thailand and now we come to the next step we learn more and training about the shaker very different and very very good for we have the good ecommerce platform we different because we know how to make the value of course and how to make the more use abilities last two year I can see leaders all around the world working very hard for me dear shaker ecommerce platform successful because we know the you sugar is one one key that make me success we also educate people to understand why this platform will bring the success and value of our coils after we we come back from new chicken franchise training from Bulgaria we have the new the new focus and Newton many things to do we we have organized musical training in many areas from 15 July to 15 acres beef out that a part of knowledge my set and vision also very important to moving up to you know where now we have training many many area in Thailand everywhere people most of them also ask the same questions they they lie to add that when the exchange will be launched this white we think that we need to add a topic one topic is important is really revision to let people know how important the the good platform of deal shaker the role of one life members and what we need to focus yes we have successful training people they understand morale what the main idea and what they need to focus in this time and how the company work very hard for this project no need to wedding and ask why when this the AB dot and now we try to to work closely with a member and merchant in Thailand because we need to have more than ten thousand versions in Thailand it's very good for us to let people are out I'll and know the usability of our cryptocurrency one coin we have great member and great merchants from a router Iran that they have the good product and except one cause let's go and sightseeing around Thailand we need to introduce you to know there's a great merchant in there not in the eat every area in in Thailand yes the first one let's go to the south of Thailand we have the really really good pull from Andaman Andaman Sea Phuket province is very famous they made about the real pearl the the copper white fur and also black pearl Phuket either famous factory we have the famous factory many place in Phuket but I want to say thank you mr. Shah the ownership of this Factory he has the big farm of pearl he opened his farm for the tallest and one life member to visit to visit the pearl farm and we can buy and use our one koi this is very good you know it's very it's very expensive if you buy we buy buy catch but now he accept 50% one cow for the good quality of pole and they want let's go to Tatia Tatia is very important really famous place you know our our world life member and our family most of the time they always ask me oh when I when they go to visit Bangkok and their destinations is Katya can they use their coins there one co2 a comma accommodate and hotel resort raised room masses and also also the good list oh I told him okay you can come we have the the coat the good road roadmap to to to allow Bangkok and Pattaya you start from Bangkok okay you stay night and and see Bangkok after that you cannot break off break off we also have the cost the cost up except one coin now so I will tell you next time you can also use your call - for the hotel and in the in the crop in the cost of happy - so the kappa in Pattaya good news they want to sell the condominium by accept 100% one koi but first thing the owner of this condominium he need to sure that you buy for living not buy for sale offered photos for do something he will sell for only people who buy the condominium for living only and the first deal he opened only four units for 100% one coin okay and the good news is he also have the good the good connection he have his friend that his friend will bring the good condominium 100 unit - kept 50% one koi yes Stone X and the next one go to PP house pp house located in personal Oh province in the north of Thailand in these drawings we have very famous Buddha there beautiful the most beautiful Buddha in the world is here pootis in Arad Buddha is very important you know in one in one year in the whole year

we have about 2 million tourists visit here very important and we have pp house and three hotel in Pesaro province to accept 100% one coin in Pismo province we have we also have gas stations massage and grace ROM and we also have the good resort and a good place to see and visit you can use your one koi 100 most of them except 100% one quarry okay if you have the chance please come and visit personal or parent is very important I think we can call this place is the hub half of the shaker half of the shaker and you know many tourists we we wonder the tourist from Europe from India and from Pakistan they visit prison law most of them 80% of tourists they have one choice and enjoy they can use one coin in this province and the next one we go to the south of Thailand again this one is the restaurant in crabbie crabbie Providence he also had the coffee and many menu is very delicious last last time I visit here and we can see that the owner is he is the doctor and he had many pieces in the in the south of Thailand and sure he accept most most of his business except 100% one coin and 50% one coin you can visit the south of Thailand and the next one is the highlight you know that Thailand is the best muscles in the world we have many place of muscles except 100% one coin you know most of massage the famous massage in Bangkok and in the north of Thailand also in the south of Thailand - everywhere you can mess up by use your one coy okay let's come back to Tokyo country in the north east of Thailand this guide he have he also had the hotel resort the properties and the land and resort will accept except one hundred and, 50, percent one coin the first one either copy or country is a resort that he accept one hundred percent one coy and he had the land around here is his land he he accept fifty percent one call for violence now he will open the the new the new India shaker he will opened total seven blocks seven blocks of land except 50-person one koi is very beautiful land and it's nearest the center of the Tao you can go everywhere the airport the suku and many places to travel in this province Tallinn have many good premium products we have rice we have luxury product and also have the good condominium I want to present this condominium to our of you is acute in bands and bands and is closed to Pattaya back from Bangkok you can find this condominium before your life Katya this is wisdom condominium wisdom condominium the owner is dr. serotonin he is very important in this province he has many business wisdom condominium is for for rent and many people if someone want to buy he will read the deal for accept 100% one call for you but first first conditions you need to come and talk with him how many unit and how many rooms you want and this condominium is very close to important place in Thailand also have the sport clubs the swimming pool and the meeting room except 100% one koi you know you know last night last night I stay night in the wisdom condominium the room is very lovely and very beautiful and we also have the meeting the meeting we can have small meeting for 20 people of 50 people can organize the meeting here this other good new is yes this guy this guy want to want to be the deal shaker Center in the East of Thailand - yes so we have the plan desk next month in September we will have merchants training we will we will gather great merchants together in the north of Thailand in south of Thailand with an esop Thailand get them together and work closely together with merchants and while life members - because we need to add more use abilities of one quois and all we need to have more more merchants our goal in after finished this year we need to touch 5000 motions in Thailand and this is very really challenging for us everybody in in Thailand teams who - to work hard together and for today I want to say thank you very much thanking you out glt and the leaders the global leaders on round the world that we work hard together and we fight together we will we have some mission to work this project successful together and see you on the top see you at a at the successful thank you very much thank you you

okay okay thank you thank you thank you for thank you very much for sharing with us all this good information because we can see that they are really a lot of a lot of usability right for this hour one all right our own cryptocurrency that we my our self and that is really wonderful as you can see from from Thailand that that is really usable right so in fact what we are promoting about you shaker is about the usability of our one right and if our one is usable in many many many regions it means that the usability is fantastic right and from the newsletter the newsletter for the past three weeks of newsletter there is a new segment talking about shout about merchants that have been introduced merchants over the world and talk about tourism why is it tourism important is because tourism is one of the major gtp input in most country right like in Singapore tourism is one of the very important source of income okay as you can see the over the past two weeks they've been talking about deals from China is also talking about usability this is a hotel a very beautiful hotel right that actually offers right a partial payment that a partial one payment for the room stays right in in China that we have two places of interest that have shows that you can actually using 50% one for payment right looking at all these places of interest they are actually paying for entry tickets by 100% one by 50% one and that is what the whole community is actually from voting about the usability right these are some new deals right from diamond rings from from watches from tour from hospital from health services from shampoo from rice from tea leaves from honey daily products that have been using that using our one to pay for it and that is what we are talking about yushik usability we will also have a true agency in inner mongolia china that actually accepts 50% 1 and look at all these beautiful sceneries right we can actually pay with 50% one to travel okay to all these places which I have bought a coupon and I will be visiting Inner Mongolia in the month of September and after that I will share more photos and videos after the trip to share with all of you next we have another lady from Asia is currently in Asia in Japan but you can see she's actually blonde blue eye and she's actually a Russian Jesus our Miss dinner see Aegina she is also a diamond GOG member and also the franchisee of Russia I got to know her way back in 2018 where we traveled to Brazil Bosnia for a gog meeting okay and we have met several times over different events over the world including the one in Singapore okay and she is also in Azerbaijan all right supporting the Azerbaijan Expo and sharing with us a lot of good information right and we know therefore the pics two months she has actually organized more than she will be organizing more than 10 events and Expos right in a whole of Russia so let us hear from this lady miss dinner SIA Jeana are you on

I'm Adam good day everyone how you can hear me well we can you very well very good mom right can share your screen as well I have to get out and the mine is yours madam okay maybe you will be disappointed but today I'll be without vision and without screen but I will try to be creative and explain everything what we have now in Russia also look I hope my English can understand everyone because I'm original as you said from Russia so I will try not to put so much my accent but okay so thank you so much Fred for inviting me to this webinar actually I was amazed that's a lot of people joining and I'm so much owner to be here and share something to you so I would like to explain a little bit who I am from a little bit my experience in network marketing so I started my network marketing experience when I was 14 years old so now I'm not 18 I'm a little bit more so it's more than 18 19 years I was somehow in near network marketing company or joining or making something so actually the first company where I started work really hardly it's one life so it was 3 years and half and go as many people who started and who here this opportunity I was of course I had doubts a lot but somehow thanks God that I could study and understand that will feel that this is the right place to be so I started my experience here so for this moment I'm a diamond and I'm franchise holder in Russia and I'm sharing this position with my sponsor

one more lady from Russia's diamond tune so like to share with you what we created for this moment so of course before before we started our job our work is franchising a lot of leaders in Russia I mean diamonds emeralds who was not in our structure but they built and work hard during this four or five years so they had a lot of big community here and they have when you shake a platform starts actually Russian people liked this idea a lot a lot of Mercia started to join to the platform so I did not say that this work is hard for us because when we came already a lot of merchants a lot of people like this opportunity and they started to gently don't shake up so what I would like to share with you I would like to share what we had because actually already a lot of things was built before us but would weigh it as franchisee and what I think is important to it for any I'm EA because I think you know that now it is very a lot of immediate partners and merchants joining us so what I think is important for each of us of course not just wait because I can hear and even in this chat I could see and even I can hear and see in our chats in Russia the people asking who's selling houses who's selling cars and something like that and I'm so for my son has maybe but this is not the right way to ask him because the most important thing it's the most important thing in our community it's to bring something in our community and not just wait so what we explain now in Russia and we try to make people become active so and of course they become axis the people have to see that there is some event or presentation or mini Expo or big events that they can bring people so our the main goal what we did we organized everything because before it was a little bit like Rome movement some people do something but it was not organizing it was not maybe in the professional way what we would like to have so what we created for this two months actually one month and a little bit more we created our own site in Russia so the people can find information all information in one place because if you see for example I think in this in many countries is the same experience when you go to Google you can find some a lot of not real information but of course the people using to believe in something what is negative so what was what we created we created site where people can find many information but in the proper way so this is what we did for one month is franchising the second thing what we created we created many expo and mini explain different cities so every month we have some big event and actually for example for this one month we had already for events to me three main mini Expo so and one big event in one region so and all events was really highly level so at the pictured photos I can see and actually what people sharing I can see that they enjoy a lot and they study Aurelia in professional way what it is because a lot of people totally don't understand what we are doing I think a lot of people at least called - and we actually maybe you're member think that the most important thing is going to exchange but of course it's important but it's it's not the most important thing the most important thing what creating we are now so what creating in each country franchisee holder with their sub franchisee and what created each I made to bring new merchants to our platform so this is the most important because only these can play it real things so we decides it for this moment already you know the trash is very big we don't have so much big population but we have so much land and okay big lens and a lot of cities so we created a lady for this moment tents a franchisees for many regions and they work hardly in their place so every week we try to make presentation of course it's dill shake a presentation but last of course we explain they explain about one life opportunity so one time for one month in big city in any regions we try to make mini spoon and one time for four months we make regional event so it's minimum 150 people and Expo plus exports so it's 50 merchants as company decides it so for example last 1718 of focus we had two events while it was mini Expo and one more event it was a big event around 220 people and around 60 merchants and actually I don't know this is the pride or note to explain that we have 100% one poem emergence a lot but what I'm thinking and as my vision what is important the important to create in mania in every big

city community who wants to share between together some are some I took some services and some products what you need daily so what we are out of focus now it's to create 100 merchants like minimum 100 marshes but maybe it's enough at the beginning that people in that city don't need to use fiat currency so it means like they can go for I don't know hey address they can go for mass massage they can use 100 and for taxi so something what you need important for every day dolly diary products of course and like okay you can image what we need for daily 'im so this is we try to create in each city in a big city so after that the people when they go to export ports they want to see something big like okay selling cars selling I don't know apartments or something something really valuable things like jewelry and something this is important but actually when I see and as a franchise when I see when I see and when I check Jesus I'm so much happy when I I can see diary products because this is what we cannot without this we cannot live without services we cannot see but without cars one more car or one more apartment we can leave so we yes we can live so we all as a franchisee teach they are all all member that this is important to bring so this is our first ball and actually for from now till the end of November we have around if I don't explain if I don't talk about mini Expo but if explained about big event will have around six big events so in each region and next big event will be held before Vietnam big Vietnam event for 5:53 University and actually we're so much glad that Simon Lee come to us actually before the event in Vietnam so in this city I am so much proud about this woman she's the woman she's organized she's not GOG maybe she's the woman who's nobody know in this world I mean just okay some community know about you but not our big community of judge or something like that but this woman is really something who is really valuable so she creates it in your own City it's the city called madam she created already the system ecosystem where actually we we still focusing to create there but she already have it so around 100 merchants and they use for daily things so already they don't okay they need fiat currency of course but actually they almost can live there without fiat money so she already did that and this is not big cities around 100,000 people but people already using that so absolutely maybe from me my message for everyone and my message has our goal and I think it's the goal for any countries to create this important thing first and after the merchants become users and after users bring more merchants and after this 100 approaches the merchants for each seed I think everyone will grow so much fast I mean all community so if we have 100 real merchants who is selling not only at Expo who is selling every day so after that I think it's very easy to bring 500 1000 so this is whatever what I wanted to share with you I'm sorry that today I did not put any videos or camera source some posters but I hope that I could understand and share with you something what was important so Fred now it's 40 minutes 30 seconds I'm almost finished I can see I can give to make speaker thank you so much thank you thank you

right I do agree it's because a lot of people are looking for cars looking for house you know from our sharing today you are aware that actually inspired right they do actually have properties right in Azerbaijan Expo they actually have cars okay so it is not that we do not have but it depends on your local community to bring in these merchants right so that your community will have this usability and this products right so that is what we have been working towards very hard okay

now next what we have we have a little bit of changes for our program due to some unforeseen circumstance mr. Hobart will not be able to come online live today but we have two other speakers that will be able to that is replacing this session okay the first person that we have on line tonight is Miss Clementine miss Clementine is is from Estonia she's from Estonia and she has she is speaking to us on a

matter of fake information and with fake information circulating which can actually damage our community very very much so we would like her to address some issues so that all the one life is here are able to disseminate the right information the right information okay and to spread around so that all of us will have the right thing to say about and to duplicate down right so can we have it's miss Clementine life right Clementine important information I can see that you are here you can turn off your might tell on your mind

sorry hello Fred good evening okay here it goes I will leave the the the stage the mic to you and please share with us this important information right and so that we can circulate to our community thank you by the time thank you very much Fred can you see my my slides please confirm okay thank you very much I've been asked to share some very important information about the webinar that was conducted against one coin last week why are hairs this is very much important because we will shed some light today about everything that has been going on and it's very important as Fred said to really be informed with good information with a really accurate information that we can duplicate this is very very much important for everyone to hear police I were gonna share some some slides here with very important information and this is no stranger to anyone at this point in the webinar last week conducted they claimed Andy and Eric is an ID genius and at the same time he claims that he has 25 years of experience at the MLM industry but this is quite different from being a specialist in the IT field you can see that their women are on again the links will be shared for you to review whenever we post a recording of this webinar but if you take a look at minute 44 and 40 seconds from there women are generic says that about himself that he has been interested in IT but he's not programmer but he's pretty clever for the promises that he and Duncan made uh to courtrand the network and the money they took from the project that never happened an IT should have been more than just a hobby for Jenny and Eric I am pretty sure of that it is an intention an interest in fact as well both generic and Duncan claim that there's no blockchain but neither of them have really every evidence to prove anything even generic himself in the webinar said that they cannot say for sure I don't know how some people who could be so naive people are still trying to get money I'm sorry from New Deal shaker platform and they fall for the new company tries to offer now that's of it I was informed temps of dill shaker that Constantine has neither approved a new platform or re-branding and yes corporate was working towards coming with something fresh and new and more user-friendly than the old esha deol shaker but Duncan on the other hand was obviously working towards the same aim but owned a parallel platform behind corporates back and in the women are generic states that he was hired several years ago and has begun working the project during this last year and after he calls and after he calls Regina tava stupid on the people from corporate official morons you know our office of morons just that's too bold for a person has been taking money for years while doing almost nothing this is awful and I can see two main issues behind this bought by our story you cannot just fabricate character currency with a bow the blockchain for two or three months if it is Sun right this should have been a long long process involving hard work from dedicated teams registration and company's dialogue with regulators on a relatively long wait in order to obtain obtained licenses and legitimate the activity and I mean if we're going to talk about it let's just talk about it in this scenario

let's say the first one this Spiker currency it's a total fraud were not real technical specification as they claim because they did not have enough time to do it or the scenario

number two Duncan has been doing it behind route John Constantine back for years and we ever heard him playing multiple times that he is ready to even take a bullet from them for them and now he does this with a webinar you know with the haters speechless Duncan just nobody likes traitors during the webinar he comes that he was hired by Raja in 2016 and he says that at the beginning he was terrified after googling her but after he met her a couple of times and talked about the concept division on the project he became a believer too and then he says that brujah regretted hiring him and he was trying to fire him several times maybe she had a point well there was a reason behind it only his friendship with Constantine at that time saved him good for you Duncan you know Xena sorry we how you pay back I can't believe this law died stinking if there was blockchain Duncan says yes I have seen it when how can we you know say that there's no blockchain when you have seen it Duncan needs to make up his mind in the webinar generic talks about how he has Russian hackers in his team you know ask his Russian IT guru you know who he works with in the other project to analyze the code just doesn't make any sense for two months you know the Rajan talking to the code to understand how it works and only reached the conclusion that it was just close to system but I cannot say anything without any real access to their system despite pleading for access also from K they never got the access untouched to remind you that currently in Duncan are working our parlor platform when our another good point and then they wonder why corporate is so cautious when it comes to security and does not give access to everybody no wonder Duncan says that he had reported everything to the FCA what is everything nobody knows and I wonder what happened to Constance you know I love you and I will die for you many people have heard Duncan say that appeal to everybody he was taken you know Duncan Arthur seriously please listen to his last seminar and inconsistencies you know and to find the facts he just points out the examples are endless but let's just go you know through a couple points firstly he's been claiming that what point that does not have a blockchain however Lord he's teammate and cousin said that he'd not want to get involved in one coin and this is when Duncan told him that what one coin has a blockchain and he has seen it with his own eyes Duncan and his teammates did not coordinate these toys quite well go and listen to the webinar it's complete fiction please we're gonna share links after this please go and listen with your own ears you know make up your own mind this is 100 percent you were just pointing some facts here Duncan claimed secondly that his team and generic has some sort of IT you know some sort of IT genius you know you know we have already gone about this you know he is a so Cole IT programmer knows and and it's not it's a whole different story you know as a salesperson everybody who has seen an IT professional with a programmer knows that these people are extremely detailed and they speak with the exact terms of his words as we normal people do not understand it's not possible Duncan described what he did in one coin back office as fixing things and this is not even grammatically correct I mean not to mention he's a medieval historian in his LinkedIn profile here that you will see states that he does not understand programming encoding at all he never studied or worked in IT on the other hand the blockchain technology is extremely complicated to people with no experience and cannot even understand what they are looking at not to mention fixing things Duncan supports two different pieces number one he left one coin in one life I'm the second one that he was fired by this off the office in fact this off the office left Duncan to expose himself he didn't lunch boy bye coil of it so you know we don't know which one switch he only study history you can see here at his LinkedIn profile you may access in your own computers and that's that's the link if you want to screenshot it but he does not have any experience as such he does not have a license to be a lawyer and has never even practice law in his life that's a new one just check the people you know working Duncan is working with you know Lloyd Moore who developed the rebranding of the New Deal shaker Orion Eric who is the soco IT genius

and Alexander problem who uses - who used to work for one coin as well as Gary Guildford a lawyer there are profiles on of it do not lead anywhere you can take their professional background we cannot even check if these are actual images of their faces because they do not show their faces only on the webinars they're they're only a voice of the internet without a profile personality of a physical figure these people may not even list exist and be alive we don't really know do not have did not have LinkedIn profiles or Twitter accounts or Facebook pages because they either hide from us or the authorities or they want the money Duncan is offering them without exposing themselves we will never know may be very good in Guilford Guilford who has never who has been the London lawyer I'm sorry has been fired by Constantine long time before Constantine fired Idina so Gary was not even supposed to be in the London office for the lounge of the New Deal shaker this says a lot about the legit ascend the legitimacy of the boy coy future Empire and pay attention here people this is very important since he works with his first cousin and another m11 professional from side talk which was bought about one coin to develop the New Deal shaker platform this sum up sums up really as a relative you know a son as a trader would you why would you invest in such scam

Duncan is has a serious drinking problem as well we all know that wish wish him although Constantine is a non smoker non drinker no substance abuser and a beacon you know a healthy life advocate and has been done confronting drinking during his working hours he spawns himself in front of many people from the network there has been trainings cancelled because he was too drunk that's what says no no goodness you know it's just I'm sure many people can think about many examples of you know his drinking problem coming in front of work and Duncan's behavior during webinars on boy coy meetings you know just to tell of you he always mentions one coin as his background which means he only also sealed network he wants to attract people who know him as a leader character in the network you know our network he does not aim to earn new people who just want you know alleged cryptocurrency it's just to steal my network his behavior is just taxes for this business you know and secondly he's always in a defensive position in fact you know Duncan is what she should be trade up he and his team you know air quotes registered accompanied in Estonia last year in June without constant sequence knowledge you know there's links for everything that we will share and the things he talked about in the webinar

you know about the New Deal shaker on the platform as well as the Sophia team you know it's just it will never happen his intentions were never to release a new deal shaker his plan was to betray Constantine released the by koi and hijacked the network with his name on it and you know thirdly he only said he has a license for an exchange not a proper exchange which offers by koi yes this is for an exchange where you can exchange the basic cryptocurrencies no not buy coy the creation of Biko is not a part of the exchange you need a specific type of exchange node to be able to exchange your own cryptocurrency which is recognized by a central bank which tube this exchange on the bike oi are not linked in any ways this behavior is deceptive he wants as much of your money as possible on Chester ran away with it now if you look at the links that we will share you know you'll see the date on it and the company was registered last year in June one Constantine Constantine was still in the company

Duncan just was prepared to take Constance in town all along and hijack the network with microwave police notice that Duncan's work with people who were involved in the Constantine us trip when he got detained this is a massive red flag those people have been preparing to constant its attention in order to steal the network and the money that comes with it this includes of course in his Murdoch who was in

recent webinars for bicoid let me remind you that this person was the one organizing the trip and the one who in person invited Constantine and Duncan to attend Duncan claims he was never either in Paulie or played you know by one life on the other hand he was one the one who would access the PayPal accounts you know which he knew deal shaker was supposed to you know self-sustained and get the money from it was the only one with access however he never paid the merchants on the platform claiming it is you know once life thought this he speaks just for itself

I don't need to say much more would you want to give this person the money you know I don't think so so that is pretty much I have to you to share thank you very much for for this this space I hope I shed some light in some issues here we will share all the links for you to revise and and you will see for yourself because this is yours facts this is just evidence this is just not us talking this is just the real truth truth so thank you very much Fred for this space and for letting me shed some light on this facts thank you thank you very much lemon-thyme

thank you so much for your sharing yeah and it's give us some information all right of what has been going around okay and we do not want negativity to spread on to us okay so we would like to have a good information so that we know what's happening and what's to transpire so right so let me introduce to you our our last speaker right and he is mr. Mohamed Adel a black diamond okay and it's also one of our GLG in a circle member right here I believe he is also the franchisee holder for one of Regent I have known him for some time Hey and we know that he is very active in online training right he has been doing a lot of videos guiding a lot a lot of members from different community right on how to run our business in one life right in deal shaker and etc okay and tonight he will be sharing with us what to focus on the exchange news right and what is going to happen after the exchange and what should we be doing okay and to get ourselves prepared for this big time that is coming so Adel are you on

yes Fred good thank you so I'll leave the time to you we need to help you as our last speaker to wrap up this evening thank you sir the mic first thanks for having me ladies and gentlemen good morning good afternoon good evening wherever you are help you doing wonderful well that was really an amazing webinar I really enjoyed it everybody thank you very much and yeah at the end the updates which I'm going to update you now first of all I would like to thanks corporate Sofia office for giving me an opportunity to present about the exchange and what will happen during the nine months of exchange opening so ladies and gentlemen please pay some attention and be focused and listen it very carefully okay I hope you can see my slides as well but let me explain you what is going to happen after the opening of exchange so what is the company going to do during these nine months we will succeed if we do work towards achieving our goals if we take all the knowledge that is provided and put it into work we will not succeed if we do not learn all we possibly can about our industry and our market we need consistency perseverance and commitment so number one for nine months the company has to create go in deficit right so number one buying educational packages using one cryptocurrency is currently permissible which means you can still buy educational packages from your back offices using your won coins and it is done to facilitate basically the coin deficit the availability of education packages to be bought with one coin is going to be discontinued after the exchanges fully functional right so buying goods and services on the deal shaker platform using one increases the demand of the coin and enhances its usability thus we have to work on that direction this is the reason why I've been focusing on deal shaker all the time since the D trekker has started and that is the reason why I've been you know

stressing out on this deal shaker platform to front of the people public that you know guys come out and let's you know contribute towards its and you know we have to bring maximum merchants because this is one of our backbone of this ecosystem so deal shaker is very important and going to play a very important role in upcoming days number three the quantity of promotional tokens in one life's educational packages will decrease by approximately, 40, five percent after the exchange well this means we are receiving every Monday through our official newsletter where company is telling us every time that the portion of tokens are going to be decreasing if account ly approximately forty five percent now according to corporate strategy strategy or will be provided other appropriate measures to decrease future coin number obtained right so number four all the big packages such as power bags are going to be discontinued they are discontinued already for a long time and no future Wonder Wheel promotions after the exchange whatsoever guys which means end of season sale no sale whatsoever okay because the company aim to attract users outside the network who see the perspective for the one and would like to use it in the growing one ecosystem thus new packages with pre-made coins has to be introduced well this strategy for the deal shaker franchise model is spreading across more countries furthermore the deal shaker platform aims to obtain more merchants through becoming more attractive to people and potential users outside the ecosystem the connection between the deal shaker and the exchange has already been implemented and ready for the transition in the upcoming months the franchisee plays the vital role of creating demand by exploring and exploiting different choices knowledge of local market specifics and legal regulations thus it is number increased now I have a very special announcement for the new franchisees the new franchisees from this week are for the following countries number one congratulation to Cyprus congratulation the biggest market india congratulation the replacement of franchise for uganda and czech republic and congratulation to Malawi I'm not going to mention the names of the franchise holders but these are the countries you know which are already have been given to someone and I hope these people will you know bring a lot of merchants in our ecosystem now the company will aim to acquiring more one users by attracting people from outside the network who are interested in the educational packages and certification they provide so over main focus will be after the exchange to introduce this ecosystem and these platforms to outside of over that work at the moment which is over ecosystem we have the network we are focusing on our people but once the exchange will be there we will be focusing all on the cold market as well and we should be going out and introducing to those merchants also who've been waiting and who's the biggest question was that you know we we cannot join the deal shaker plate from until the exchange is open so once exchange is open and obviously this excuse is also no more there well now educating people to properly use the exchange is the correct route to smoothly operating exchange we company have nine months to stimulate people to use remittances to explain them how the exchange will work to teach them how to transfer their coins among co-owners okay we have to assist the company with provision of adequate information to the company to other independent marketing associates and disseminating in a proper way companies aim and vision people get ready yes it is a common saying that the only thing necessary for the triumph of evil is for good people to do nothing imagine how different our world would be if we made a commitment right now to put into action all that knowledge that we currently have and that we will obtain what a life we could then share with our families and what an inheritance we could leave to the next generation because we cared enough to do something with our lives and to put our skills and talent to work that's all from my mama from me now thank you very much for listening and I hope this webinar is being recorded it will be online on the YouTube channel and on the social media the people

can you know rewind it and watch it listen it and share it thank you very much for it for having me thank you thank you

thank you mr. REO thank you so much for the good information as many people are expecting the arrival of the the exchange but if you have read the news letter on Monday the coppers already given us a lot of good information and what should be done you know subsequently when the exchange opens and I think that we ourselves as a user right we need to prepare ourselves get to know what should we do how what is happening and get ourself prepared you know before the exchange comes about life now thank you very much for all your time today attending our webinar our next webinar will be on next Wednesday same thing at 1600 CET time which is Sophia time and please walk it out on your own GMT in your different regions and

we will see you again next Wednesday thank you very much and good morning good afternoon good evening and good night to wherever you are so see you again bye bye so we will keep the year the room open and should anyone needs to type anything and ask any questions which do so we will take some time to to answer you for the next sir say it's about 10-15 minutes
