Trump Designates Anti-Communism Week in Election Day Proclamation | The Epoch Times

Executive Order 13848 — IMPORTANT CLARIFICATION ON THE 45-DAY TIMELINE. Many suggest something BIG must happen 45 days after the election. READ Executive Order 13848 please. There are TWO separate 45-day periods outlined in Sections 1(a) and 1(b):

1️⃣ FIRST 45 DAYS — December 18, 2026: The Director of National Intelligence (DNI) must assess potential foreign election interference and submit findings to the appropriate officials.

2️⃣ SECOND 45 DAYS — Approximately February 1, 2027: Following receipt of the DNI assessment, DOJ and DHS have another 45 days to evaluate whether foreign interference materially affected election infrastructure, vote tabulation, campaigns, or political organizations. **Source: EO 13848, Sections 1(a) and 1(b).**

Democrats just HANDED **President Trump the keys to TOTAL FEDERAL DOMINATION in a catastrophic backfire that will ECHO through history!.** By dragging their desperate fight to the Supreme Court, these fools triggered **a NUCLEAR EXPLOSION of presidential power!** Legal experts are SCREAMING it from the rooftops: **This ruling UNLEASHES Trump to deploy federal forces EXACTLY like Eisenhower did after Brown v. Board — but on STEROIDS!** First move? PROTECT federal buildings! SHIELD ICE agents at ALL COSTS! If blue cities and states REFUSE to do their damn jobs... FEDERAL AUTHORITY CRUSHES IN! MARINES. AIRBORNE UNITS. REAL ENFORCEMENT. NO HOLDS BARRED. **National Guard? That's child's play — only if needed LATER. Democrats thought they were CHECKMATING Trump... Instead, they just UNLOCKED his FULL CONSTITUTIONAL WAR MACHINE! 💥 MASSIVE. EPIC. BACKFIRE. The Great Awakening is HERE. @DTruthsQ**

The US Senate has just ADVANCED the President Trump-endorsed affordability, economy and permitting reform bill, 62-21. TRUMP: "This Bill is a BIG WIN for U.S. ENERGY INDEPENDENCE and DOMINANCE." "This Landmark Permitting Reform Legislation will codify our America First Energy Agenda, and ensure that we can build Pipelines, Mines, and Power Plants faster than ever before." **@SGTnewsNetwork**

Thanks to American Bulletin: NOW: Donald Trump's ICE drops this message the day after Democrats won the midterms in a shellacking. "Faithless is he that says farewell when the road darkens." "Get up."

Border Patrol Commander Greg Bovino (Ret.) is calling for SURGES of DHS agents to major US cities to FORCE OUT 100 million illegals. "Let's make it SO HARD for them to live, to work, to procreate, to do ANYTHING in the US that they have NO CHOICE but to self-deport" They MUST have incentive to self-deport. Saying we're targeting the "worst of the worst" is signaling to the majority of illegals that they're SAFE from deportations. **https://t.me/Graham_Hodsdon10**

MEMORANDUM FOR ALL COMPONENT HEADS AND U.S. ATTORNEYS

FROM: THE ATTORNEY GENERAL

SUBJECT: SUPER INTELLIGENCE TASK FORCE

President Trump has announced that "America stands at the forefront of a new technological revolution" and directed the creation of the Super Intelligence (SI) Force (SIF) to ensure that America leads the world in SI.[1] The President also has directed that the Nation's leadership in this field be safeguarded against compromise.[2] Consistent with that directive, and to ensure effective coordination with the SIF, I hereby establish the Department of Justice Super Intelligence Task Force (DOJ-SITF). The DOJ-SITF will ensure that America's leadership in SI is not compromised by the misuse of SI by foreign state and state-sponsored actors, transnational criminal organizations, and individual or corporate actors engaged in fraud or other unlawful conduct. The DOJ-SITF will also take affirmative measures, as appropriate, to promote American SI dominance.

Gov. Ron DeSantis says he built TRUST with Florida voters and put Amendment 3 — phase out property taxes on the ballot, which SAVED Republicans statewide. "We won every statewide race, U.S. Senate, governor, all our cabinet races. We had a 27 out of 40 in the Florida Senate. We did lose one, but we'll have 26 out of 40, which is still a strong majority. So it's a big difference from Texas...that is gonna HURT the Republican Party going forward." - FOX NEWS

FLORIDA. HOLY SMOKES. DESANTIS UNLEASHES AMERICA FIRST RAMPAGE, BLASTS GOP SENATORS FOR FAILING TO DELIVER CONSERVATIVE REFORMS. Gov. Ron DeSantis tore into Republican senators on national television, demanding to know why they failed to shut off H-1B visas, codify Trump's immigration executive orders, and strip federal courts of jurisdiction over deportation cases. DeSantis said Republicans never demonstrated they would deliver conservative reforms, even with 50 votes, and argued that frustrated GOP voters stayed home in the midterms over Congress's lack of productivity.

The White House and President Trump have asked ANYONE who had voting problems of any type to report these issues to the White House and or the FBI… this is the White House Switchboard phone number - (202) 456-1414. Call that number and tell them you want to report your problems. This is needed to determine what happened. Our local politicians are largely compromised. Our nation needs these issues reported immediately as there is massive treason at work yet again. Keep in mind that President Trump posted on October 26th a $1,000,000 reward for information leading to the arrest of those involved in committing election fraud. **– The White House We all need to call the WH telling them we've known for decades the machines are rigged so just like all the years before – my vote may not have been counted. Bill Brindley Here is the job of the White House Chief of Staff Strong leadership requires sharp focus, unwavering discipline, and a deep commitment to an agenda. Massive congratulations to Stephen Miller on stepping into the role of White House Chief of Staff. To understand why this position is so vital, it helps to look at **what a Chief of Staff actually does**. Often described as the gatekeeper and manager of the executive branch, the White House Chief of Staff is one of the most influential positions in Washington. They wear multiple critical hats: Strategic Direction & Management: Oversees White House operations, manages the president's schedule, and coordinates the entire executive staff to ensure the administration's goals are executed seamlessly. Policy Implementation: Acts as a central coordinator for major legislative and executive priorities, bridging the gap between political strategy and practical governance. The President's Advisor: Serves as a trusted sounding board, offering unvarnished counsel on high-stakes national issues and political decisions. **With his extensive background guiding policy and fighting for conservative priorities, Stephen Miller brings a proven track record of dedication to the table. Looking forward to seeing the impact of his leadership in this pivotal role! Plus, a wonderful bonus is that Miller drives the left absolutely insane.**

I tried to mentally prepare you, today, for what I felt was coming. It wasn't popular, but I said it anyway.
Nothing was ever fixed, so what could we expect? It had to be this way!
Let me remind you of these things:

1- You are watching a movie It's a White Hat Production exposing ALL of the corruption! You see it now, RIGHT!?

2- This election was a trap for the Deep State (what's left of them)! SPACEFORCE had it all!

3- Anons were told that at the end of this movie it would look like ALL hope is lost and here we are!

4- "AND THEN SUDDENLY" There will be something that happens to turn it all around!

5- P.s. Christmas is coming early this year

6- Yes, I'm comfy because I know how this movie ends. I'm not whining. I'm not crying. My complete and total faith is in GOD.

7- We are still waiting on hearing the results of the SCOTUS ruling on the Brunson 2020 election fraud.

8- We still have ALL of the TRUMP CARDS including the 900+ Celebrities that went into Witness Protection Program and did NOT die! They will come out, give their testimonies, and some will perform a huge concert for us! The Q community told us Anons that this concert would make the Superbowl look like a puppy show!

9-We still have 700,000 sealed indictments

10- We still have Nesara Gesara to be announced any day now. We will go to gold backed currency and all debts will be wiped. You will own your houses and your cars instantly!

11- Trump has the RED PEADS folder that gives him VERY special Presidential powers that only a few people know about!

12- We have 6,000 patents that will be released with Nesara Gesara INCLUDING MED BEDS

13-The MILITARY has been running our country under COG (continuation of government) because we are at war since Trump's inauguration in 2017

14- All countries capitulated to Trump in 2017. He runs the world right now.

15- Everything is going QUANTUM and there will be no more fraud!

16- MILITARY is the only way!

17(Q) - If you're still depressed at the end of my list read it again.

Everything will be ok! ALL IS WELL! Do not make any permanent plans/decisions while you are emotional. Look forward to what's coming and keep your thoughts positive. One day at a time! xo

Facts They Don't Teach You Follow

A MICHIGAN SCIENTIST HAS HELPED DEVELOP INVISIBLE SOLAR PANELS THAT COULD TURN ORDINARY WINDOWS INTO ELECTRICITY GENERATORS! ☀️🪟

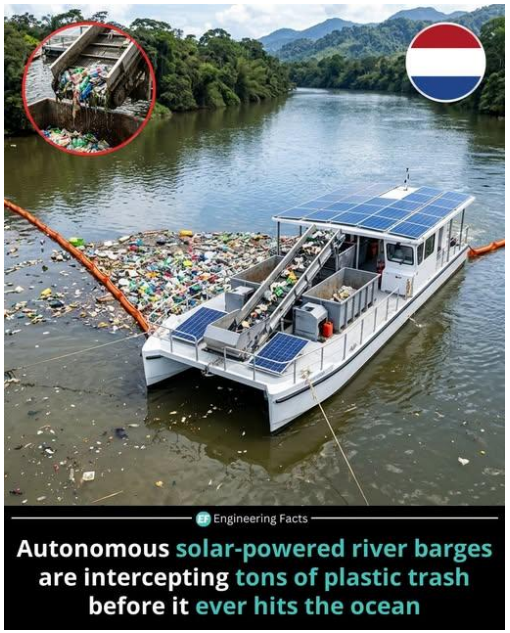

Imagine looking through your home or office windows while they quietly generate electricity from sunlight without blocking your view. That's the idea behind transparent solar technology developed by researchers at **Michigan State University, led by scientist Richard Lunt. Instead of capturing the visible light that allows us to see through glass, the technology absorbs invisible wavelengths of sunlight, including ultraviolet and near-infrared light.**

Here's how it works: The transparent material captures these invisible wavelengths and redirects the energy toward the edges of the glass, where small photovoltaic solar cells convert it into electricity. The result? A window that can generate solar power while remaining visibly transparent. And the possibilities are enormous. Think about skyscrapers covered in glass, office buildings, homes, cars and even electronic devices. All those transparent surfaces could potentially become sources of renewable energy without needing traditional bulky solar panels.

Michigan State University has already demonstrated the technology through transparent solar glass installed on its campus, showing that the concept can move beyond the laboratory. It doesn't mean every ordinary window can be converted into a highly efficient solar panel overnight. Researchers and companies are still working to improve efficiency, manufacturing and large-scale adoption. But the idea itself is fascinating. What if the windows in our homes, offices and skyscrapers could generate electricity without us even noticing? The future of solar energy might be hiding in plain sight.

Engineering Facts

Marine researchers discovered a startling statistic: just 1,000 rivers around the world are responsible for roughly 80% of all plastic trash flowing into the Earth's oceans. Instead of trying to chase millions of broken plastic fragments across the open Pacific, Dutch engineers at The Ocean Cleanup designed the "Interceptor" — a 100% solar-powered autonomous catamaran barge that parks near the mouth of polluted rivers.
