"In all our deliberations on this subject we kept steadily in our view, that which appears to us the greatest interest of every true American, the consolidation of our Union, in which is involved our prosperity, felicity, safety, perhaps our national existence. This important consideration, seriously and deeply impressed on our minds, led each State in the Convention to be less rigid on points of inferior magnitude, than might have been otherwise expected; and thus the Constitution, which we now present, is the result of a spirit of amity, and of that mutual deference and concession which the peculiarity of our political situation rendered indispensable." Breaking: US Issues Security Alert as Trump Rushes to WH Days After Saying US Could Soon 'Annihilate' Iranian Regime President Donald Trump's weekend trip to Camp David was cut short suddenly Saturday night after the U.S. State Department issued a security alert in the Middle East. Tensions in the Middle East escalated significantly earlier on Saturday when the Houthis, an Iran-backed terror organization, staged a ballistic missile assault on Saudi Arabia, one of the U.S.'s most significant non-NATO allies in the region.

Trump Just Invoked a 142-Year-Old Law to Restore Common Sense to Immigration — and It's Already Working. President Trump has dusted off the Immigration Act of 1882, a statute that codified what used to be basic American principle: a sovereign nation has the right to refuse entry to those who cannot support themselves. Convicts, the incapacitated, and anyone destined to become a public charge were never promised a path into this country. That was not radical then. It is not radical now. The results speak for themselves. **An estimated 5.6 million migrants are expected to lose welfare benefits under this enforcement, saving American taxpayers $13 billion**. That is not cruelty — that is arithmetic. That is a government finally remembering that **entry was never supposed to be a welfare application.** For decades, the left has treated immigration enforcement as optional and self-sufficiency as negotiable. Meanwhile, American families already stretched thin paying for schools, emergency rooms, and housing have watched the ledger grow and grow. This is what happens when you stop selecting and start apologizing.

A country that cannot distinguish between those who will work and contribute and those who will immediately drain the system has lost the ability to help anyone — not least its own citizens. Trump is restoring that distinction. That is leadership.

Trump Gives Huge Update on Russia-Ukraine War That Could Ease Pain at the Gas Pumps

Trump just said something at the White House tonight that the entire country is going to be talking about tomorrow. And I was not ready for it. At a law enforcement dinner — surrounded by the officers who keep America safe — Trump looked at the crowd and asked two questions.

"Who likes JD Vance?" The room erupted.

"Who likes Marco Rubio?" The room erupted again.

And then Trump smiled. And said — "Alright. Sounds like a good ticket. I do believe that's a dream team."

And I sat here thinking about what that means. **JD Vance. The boy whose father left. Who was raised by a grandmother who refused to give up on him. Who joined the Marines because it was the only way to afford college. Who went from zero to Vice President of the United States**.

Marco Rubio. The son of a bartender who stood behind that bar for 70 years so his son could stand in front of the world. Who became the highest ranking Hispanic official in American history. Who Trump himself called the best Secretary of State ever.💬💬

These two men did not come from money. They did not come from power. They came from nothing. And they built everything. And tonight Trump looked at a room full of the people who protect this country and said — these are your next leaders. God's plan for America is not finished. Not even close. 🙏❤️🇺🇸 If JD Vance and Marco Rubio as a future ticket excites you… tell me what that combination means to you for America's future.

Secretary Marco Rubio delivers a DEVASTATING reality check — NATO is now a "one-way street" and he dropped a MAJOR hint about what's coming after Iran. "Unfortunately, after this conflict is concluded, we're going to have to reexamine that relationship." RUBIO: "If now we've reached a point where the NATO alliance means that we can't use those bases, that in fact, that we can no longer use those bases to defend America's interests, then NATO is a one-way street. Then NATO is simply about us having troops in Europe to defend Europe but when we need their help, not their help, **we're not asking them to conduct air strikes, when we need them to allow us to use their military bases, their answer is no? Then why are we in NATO? You have to ask that question. Why do we have billions, hundreds of billions of dollars over the years, trillions of dollars, and all of these American forces stationed in the region, if we can only...in our time of need we're not going to be allowed to use those bases. So I think there is no doubt unfortunately, after this conflict is concluded, we're going to have to reexamine that relationship. We're going to have to reexamine the value of NATO and that alliance for our country."**

Rubio just laid it out — America has been carrying NATO while "allies" sit on their hands in our time of need.

If you don't understand why President Trump & Bessent use the words "dividend" & "assets," then you should look up their definitions. They are doing it for a reason & have been using those two "words" since President Trump was sworn in The people criticizing President Trump for suggesting that American "citizens" are going to receive "dividend" checks in the future, either don't understand the definition of "dividends" & "assets" or are being disingenuous by ignoring what President Trump & Bessent have been doing since President Trump was sworn in again[3X]

For the first time in history, President Trump & Bessent created the "Sovereign Wealth Fund"

Why? Who's "sovereign wealth?" The American people's "sovereign wealth," that has been STOLEN from the people for many generations The complainers & criticizers on the right, complain about the national debt & use that, as the "excuse" for not paying American citizens "dividend" checks. While out of the other side of their mouth, they will celebrate the DAILY exposure and prosecutions by President Trump's DOJ, against fraudsters STEALING the American people's (taxpayers) wealth.

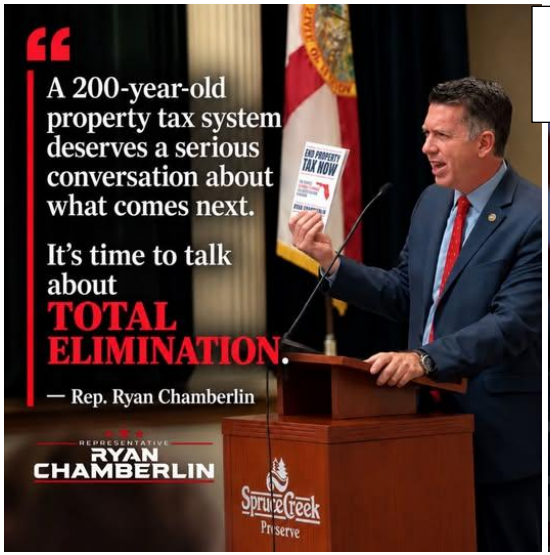

The truth is... The ENTIRE national debt is FRAUD & has been STOLEN by our corrupt government & their foreign puppet masters for generations And the criticizers would rather we pay that debt back to the fraudulent bankers, who used to control the world's financial debt slavery system, rather than **to RETURN the STOLEN wealth back to the people**

I have been saying it now for years, that this was coming. It's not a surprise President Trump & Bessent aren't going to send out "one time" dividend checks They are going to keep sending them out every year. Maybe every quarter??

How do I know!!

How many times does President Trump have to SIGNAL to you that in the past, our country was very wealthy BEFORE the federal income tax & the government was completely funded on "tariffs". Just wait. Federal income taxes are going to end. There's a reason why President Trump has passed the most tax cuts in history & focused them on the middle class *Lowered all the tax brackets *Doubled the tax deduction *Doubled the child credit *No tax on Social Security benefits *No tax on tips *No tax on overtime. Can you see the SIGNAL? I MEAN SERIOUSLY ITS LOUD AND CLEAR!!! President Trump is ALREADY letting millions of Americans KEEP more of their hard-earned money.

Who does the MONEY belong to? The people or the government? The criticizers of the coming "dividend" checks think the MONEY belongs to the government. **The "dividend" checks are going to be the BRIDGE into ending income taxes.** Instead of the American people anticipating their "tax refunds" —-(bahahaha) . **The American people will be anticipating their yearly (or quarterly) dividend checks, paid for by tariffs AND profits from the Sovereign Wealth Fund** 💰💰💰😜 **There's a reason why President Trump has bought stock in specific "national security" & other ™ (trademark) related companies, like Intel & mining companies for the American people. The American people are no longer getting their jobs & manufacturing STOLEN. They are now going to SHARE in the success of the manufacturing that is now returning to America.** And the criticizers on the left, say we can't give **American citizens "dividend" checks**, while at the same time they promise "free" stuff to illegals & their supporters. **All paid for by you the taxpayer.** The midterms are ALREADY secured. What we're doing now is massively growing our numbers. The media completely ignores the fact that republican registrations are growing everywhere, while democrats numbers are shrinking, along with their fundraising. Still way too many people underestimating **what President Trump's Golden Age is really going to be like** because they are stuck in the past **-DBC NYC Comptroller**

California has covered working irrigation canals with solar panels, and the strange part is what happens underneath. The panels generate electricity while their shade could slow evaporation from the water below. A 2021 model estimated that covering about 6,350 km of major California canals could cut evaporation by roughly 63 billion gallons, or 240 billion litres, each year. That number is a model estimate, not a measured result from the pilot, and Project Nexus is now collecting real data on power output, evaporation and canal conditions. If the results hold across multiple seasons, the same space could produce renewable energy and help keep water in California's canals.
